FOREIGN NEWS.

Seo de Urgel Surrendered to the Alfonsists.

The Proposed Pilgrimage of Germans to France.

The Difficulty Between the American Consul and Tripolitans Settled.

GREAT BRITAIN.

The Difficulty with China.

LONDON, August 27.—The Manchester *Guardian* and Birmingham *Post* have a corroborating report of the Bombay *Gazette*, and purporting to be derived from the Foreign Office, that the British Minister at Pekin has telegraphed to his Government for a reinforcement of troops.

The Central News Agency states on authority that no communication has been received from the British Minister at Pekin, complaining of the manner in which he has been treated by the Chinese Government. Since the Burmah affair he desires to have his hands strengthened in case of need, but he has not been insulted, and the reports as to the seriousness of the trouble are highly colored and exaggerated.

LONDON, August 27.—The Foreign Office announces that the rumors of serious complications with the Chinese Government are exaggerated. The English Minister to China has complained of a difficulty having arisen with that Government; but though embarrassing, it is not alarming, and it is believed will be speedily arranged.

The Yacht Collision.

PLYMOUTH, August 27.—After ten hours' deliberation to-day, the jury holding an inquest into the collision of the Royal yacht with the yacht Mistletoe, were unable to agree. The inquest adjourned until the next Winchester assizes, and the jurors and witnesses were bound over to appear.

FRANCE.

The Pilgrimage from Germany.

PARIS, August 27.—The pilgrimage from Germany is exciting considerabe discussion in France. *Le Moniteur* says France is open to all foreigners, but the Government is entitled and bound to oppose all assemblages, displays of banners and insignia calculated to disturb public order, and it will not fail in its duty. The Government and public opinion of France agree that it is their duty to abstain from interference with discussions and conflicts in Germany between Church and State, and for the sake of peace, which is dear to us and desirable to the Germans, to avoid making French territory a scene of their religious discussions.

TRIPOLI.

The Difficulty with the American Consul Settled.

MALTA, August 27.—The United States steamer Hartford left Tripoli yesterday, arrived at Malta this evening, and proceeded to Memel, on her way homeward. The difficulty between the American consul and the Tripolitans was settled on Thursday, an apology having been made to the consul, in accordance with orders from the Porte.

SPAIN.

Surrender of Seo de Urgel.

PERPIGNAN, August 27.—Seo de Urgel has capitulated. The Alfonsist army occupied the forts this morning. The garrison were made prisoners of war and taken to Puycerda. The bishop of Seo de Urgel was also taken to Puycerda as a prisoner of war.

THE BALTIMORE FAILURE.

The Cause of the Suspension—Carrying Too Much Molasses.

NEW YORK, August 27.—A special from Baltimore says: The firm of Stirling, Ahrens & Co., which suspended yesterday, have imported since January 1st fifty thousand hogsheads of sugar and forty thousand hogsheads of molasses—nearly two-thirds as much as their whole trade. Since 1874 they have been carrying great quantities of molasses at a heavy loss. Ever since the commencement of the year the market price has not been paying for the manufacture. The principal Baltimore creditors are Alex Brown & Sons, bankers, and the Bonninger Bros., shippers. The Browns are creditors to the amount of $300,000. That firm suspended on the 1st of January, and it was their refusal to make a further loan of $150,000 that precipitated the suspension. Besides their import trade, Stirling, Ahrens & Co. have largely exported flour and provisions to the West Indies, and are consequently in debt to the flour trade and packers. The firm own the Chesapeake and Merchants' refineries, lease the Maryland, and operate the Calvert for its owners, all of which, except the latter, they converted into molasses refineries, and so accumulated a heavy stock, which broke them down. They also own a large barrel factory, and have nine vessels engaged in the trade with Cuba and Brazil. Their coffee business has not been great of late, and has not affected their interest.

BALTIMORE, August 27.—At a meeting of the creditors of the Calvert Sugar Refining Company to-day, the following report of the condition of the company was submitted: Assets—Cash, $41,353; due by sundry parties, $1,583,041; stock of sugar on hand, $1,105,595; refinery, $609,974; total, $3,339,963. Liabilities—Bills payable, $2,585,747; due sundry parties, $99,284; capital stock, $600,000; total, $3,285,031.

The Calvert Sugar Refinery was operated by Stirling, Ahrens & Co. as agents. At a meeting of the directors it was ascertained that of the amount stated as due by parties, $807,000 was owned by the firm of Stirling, Ahrens & Co. Stirling tenders his resignation as President, as also Ahrens as Treasurer, both of which were accepted. The directors thought it advisable to suspend payment temporarily, and a committee was appointed to furnish an authentic statement of affairs.

It is stated it was not known to any members of the Board of Directors of the company, except Stirling and Ahrens, that the firm was indebted to Calvert, or that its credit was used for the benefit of the suspended firm. The business of the refinery will be continued.

EVANGELICAL CONVENTION.

The War Against Romanism—No Division of the School Fund for Sectarian Purposes.

NEW YORK, August 27.—The Evangelical Convention now held at Cape May, yesterday discussed the subject of Romanism, and adopted the following:

Resolved, That we do cordially approve, and earnestly maintain, as citizens, the principle which separates State from Church.

Resolved, That it is with profound regret we have learned that *politico-ecclesiastical* organizations have been established in New Jersey and other States, under the inspiration and blessing of the Pope, the members of which unions are bound to succeed, and earnestly calls on the friends of American institutions to extend their energy in every legislative way to resist the aggressions and maintain our free institutions.

Resolved, That believing in freedom and right of self-government, we call on all the patriots in the country to resist, by all lawful methods, all efforts to change the system of public school education.

Resolved, That we earnestly solicit every true friend of our country to use his influence, in every proper way, to prevent State and municipal appropriations for sectarian purposes.

The debate on the fourth resolution was sharp and prolonged. An afternoon session was held, at which Dr. Levin, Presbyterian, of Philadelphia, made a speech on Christian Union, which he said could never be brought about until the barriers between the denominations were removed. Episcopalians should welcome all Evangelical ministers to their pulpits and Baptists should admit other churches to the Lord's table.

Lake Disaster—Ten Lives Lost.

DETROIT, Mich., August 27.—The Canadian steamer Manitoba collided with the propellor Cornet last night, above White Fish Point, Lake Superior, at 8:30 o'clock, and sunk her instantly. Ten lives were lost and ten were saved, including the Captain and first mate. No one was injured on the Manitoba, and she is now on her way down with the survivors of the Cornet.

A Coal Tow Sunk.

CHICAGO, August 27.—The *Post and Mail* special from Cairo, Ill., says the steamer Smoky City, bound south, with a tow containing 260,000 bushels of coal, struck a bar sixty miles below that city, and the entire fleet was sunk except a fuel barge. The tow belonged to Riddle, Coleman & Co., of Pittsburgh. No insurance.

Lynch Law Threatened.

CINCINNATI, O., August 27.—A dispatch from Jamestown, Ohio, last night, stated that a mob gathered around the jail where Gustave Humler, the German who cut the throat of his child, is confined, and threatened to lynch him, and the Sheriff and posse removed the prisoner to Xenia.

Marine News.

NEW YORK, August 27.—Arrived—The steamships Donau, from Bremen, and Assyria, from Mediterranean ports.

LONDON, August 27.—The steamship Wisconsin, from Bremen, has arrived out.

FROM WASHINGTON.

WASHINGTON, August 27, 1875.

Gold for the California Banks.

Heavy transfers of gold to California are being made by the Treasury to-day in support of the banks of that region. Upon official notification being received at the Department that the agents of the banks have deposited gold with the Assistant Treasurer at New York, telegraphic instructions were sent to the Assistant Treasurer at San Francisco, placing credit to the respective banks making such deposits in New York. Thus far $1,000,000 have been transferred.

THE CROPS.

Reports from the Southern States.

MEMPHIS, TENN., August 27.—The Cotton Exchange crop report for August gives the following summary of the crops in the Memphis district, composed of West Tennessee, North Mississippi and Arkansas. Four hundred and sixty responses from North Alabama, though not in this district, are also included. The committe say: Notwithstanding the excessive wet and cold weather that has prevailed since our report of June 26, the general crop prospects indicated by this report are of the most gratifying character. The probabilities are that a larger or better corn crop was never made in this region of country. Abundant crops of wheat, oats, millet, and in most of this region, good crops of small grasses are made, and all harvested and protected save corn. The latter has in all instances matured, and only awaits the convenience of the planters to harvest. 112 report excessive rains; 64 balance of the time cloudy; 60 generally cold; 64 cold nights; 2 very dry; 46 favorable weather; 130 report the cotton plant fruiting well; 30 not well; 103 report the plant retaining fruit; 57 shedding seriously; 154 report well cultivated; 6 not; 135 report better crops than in 1874; 24 an equal one, but not so good as estimated—average twenty-eight per cent. better; 21 report the bottom growth only good; 67 report the bottom and middle growth good; 80 report the top crop very light and making too much weed; 21 report the bottom growth rotting seriously; 7 serious development of rust; 74 report perfect crops; 8 report picking commenced. All report picking will not become general until on an average September 13th.

Much speculative apprehension is expressed in regard to the present critical condition of the cotton crop, which is generally claimed to be two or three weeks later than usual. Its luxuriant growth will require an exceedingly late frost, and unless dry, warm weather succeeds, great danger of the bottom growth in low lands, where the growth is already so dense as to exclude both sun and air. In regard to damage by the overflow, we have been unable to arrive at any definite information. In most cases our correspondents in the overflowed districts have been so overwhelmed with their own cases that they were unprepared; some were unwilling to make definite responses. That very great damage on plantations, subject to the influences of a flood by the Mississippi river, has occurred, will not admit of a doubt. When the totally destroyed and partially destroyed by backwater, in connection with the damage by sipe and standing rain water, is considered, we are constrained to believe from such information as we have, that the damage within that portion of the cotton region allotted to this Exchange will not fall short of 60,000 bales.

One hundred and twenty-seven report superior corn crops; 31 report good; 1 reports inferior from drouth. Much damage has occurred in river districts by the overflow, and much in the interior by wind storms—estimated damage not given. 107 report no damage to the wheat crop by exposure; 18 report average damage as to them of 9 per cent. The average yield per acre of 125 reports is 12 1-8 bushels. 128 report good crops of oats raised; 11 inferior; 20 none raised; 130 report crops well saved; 10 not with an agerage loss to them of ten per cent.; 138 report good crops of millet; 74 report small experimental; 117 report well saved; 24 partially damaged by weather; 19 report none raised; 128 report laborers working well; 23 report moderately well; 9 report not well.

The depreciation in the morale of labor mostly occurs in Mississippi, because of political influences. The aggregate for North Alabama is 20 reponses; 17 report excessive rains; 8 report balance of time cloudy; 5 report generally cold; 9 report cold nights 3 report favorable weather; 17 report fruiting well; 3 report not; 15 report retaining fruit; 5 report shedding seriously; all report the crops well cultivated and better than 1874 by an average of 32 per cent.; 1 bottom crop only good; 11 bottom and middle crops good; 12 top crop making too much weed; all report that no picking will commence on an average September 14th; all report the condition of the crop the same as the Memphis district, as regards an early frost; no loss sustained by overflow; 16 report suport superior corn crops; 4 good, no damage reported; 18 report the wheat crops saved without weather damage; 2 report damage of 15 per cent.; average yield per acre 10 bushels; 14 report good oats crops grown; 6 inferior; 19 report well saved; 1 not; 19 report good millet and grass crops grown; 1 none; 16 report crops well saved, 3 damaged; average 23 per cent.; 16 report laborers working well; 3 moderately, and 1 not well.

The Crops in Minnesota.

ST. PAUL, August 27.—During the past few days and nights very heavy rains have fallen throughout this State. They have come at the very end of the harvesting season, and should have found farmers fully prepared for them. No more favorable weather for securing the grain crops could be wished for than has been experienced in the last three weeks up to Monday, and it is an absolute fact that the bulk of the finest crops of wheat, barley and oats ever raised in any State has been secured in good condition and put in stanck beyond fear of damage by the late raias. It appears, however, from recent reports from a large number of points, that considerable grain still remains in shock, not having been stacked, but is waiting the speedy advent of threshing machines. The late rains have done much mischief to grain in this county. There was another pour this afternoon and evening, but even to grain in shock, not in stack, the damage so far, if the skies are clear to-morrow, cannot be large, not more than one per cent. on the entire crop. A very large average of corn was planted this year in this State. The prospects are very poor, as the weather has been uniformly and remains too cool for the ripening of the plant.

SEASONABLE SPORTS.

Long Branch Races.

LONG BRANCH, August 27.—First race, for all ages, 1¼ miles; won by Spendrift. Time 2:13.

Second race, for all ages, 1 mile; won by Donnybrook. Time 1:48¾ and 1:51¼.

The mile dash was won by Burgo. Time 1:18¾.

The steeple chase, over the usual course, was won by Dead Head, Moonstone second, Minnie Mac third.

The Races at Springfield, Mass.

SPINGFIELD, Mass., August 27.—About 12,000 persons attended the closing races of the Hampden Park Association to-day. Goldsmith Maid and Judge Fullerton were withdrawn from the free to all race on account of lameness, leaving Lulu, Nettie and American Girl the only competitors for the purse of $5,000. American Girl won the race in three straight heats, with Lulu second. Time 2:22, 2:24 and 2:22.

The 2:34 race, for a purse of $3,000, was won by St. Julien, who took the three last of five heats. Nereal took the second money, John W. Hall the third, and Sir William Wallace the fourth.

Daring Express Robbery.

The Keys Taken from a Sleeping Messenger—An Attempt to Shoot Him—The Robbers Escape with Some Packages.

SALT LAKE, Utah, August 27.—The express car on the Union Pacific Railroad, bound east last night, was robbed between Bitter Creek and Table Rock Station. The robbers are reported to have got on top of the car and one of them climbed through a window while the train was in motion and the messenger asleep. They got the keys out of the messenger's pocket, unlocked the safe, and when the messenger awoke he was shot at, but missed. The messenger pulled the bell rope and stopped the train, but the robbers escaped with some packages. The amount is unknown.

A Queer Shooting Case.

CHICAGO, August 27.—A detective appointed to investigate the case of the alleged shooting of ex-Gauger Miller furnishes evidence that Miller shot himself, and that the shooting was not done by an assassin, as claimed. The detective says that he has discovered a man who admits being hired by Miller to accompany him that night, and to act the part of a shadow, and that Miller informed him there would be some shooting. Three watchmen heard but two shots fired, while Miller says there were four, and admits firing two himself.

Fire on a Lake Steamer.

BUFFALO, August 27.—A large four master lake steamship, the Persian, from Chicago to Buffalo, laden with 50,000 bushels corn and 15,000 bushels wheat, was reported burning rapidly ten miles east of Long Point, Lake Erie, last night, and will probably be a total wreck. The grain was insured, but Messrs. Winslow, the owners, do not insure their vessels' hulls.

Severe Rain Storm.

OMAHA, Neb., August 27.—The severe rain storm of last night has done considerable damage throughout this section. Railroads have suffered some from wash-outs, but there are no serious detentions to traffic. The Elkhorn river is very high, and still rising.

SECOND EDITION.

THE SAN FRANCISCO PANIC.

Additional Bank Suspensions.

The Failure of the Bank of California.

Too Much Speculation the Cause.

President Ralston Commits Suicide.

More Trouble Expected Next Monday

Excitement in New York Financial Circles.

SAN FRANCISCO, August 27.—The National Gold Bank and Trust Company have sent in the following notice for publication in the morning papers:

"In consequence of the panic and the impossibility of obtaining gold, the National Bank and Trust Company will close until further notice. The bank has $1,300,000 over and above all its liabilities, and as soon as coin can be obtained, will resume business as usual. In the meantime, any creditor desiring can have good assets of the bank to the amount of his claim.

"By order of the Board of Trustees.
[Signed] "HENRY L. DAVIS, Pres't."

The Merchants' Exchange Bank closed its doors this morning. The directors have prepared the following notice for the afternoon papers:

"In consequence of excitement and disappointment in getting coin, the directors deem it for the best interests, the interests of all, not to open our doors for the present."

The Secretary states that the bank has $100,000 in coin on hand. The amount liable on deposits is $800,000, but against that may be over $400,000 in notes. The bank is perfectly solvent. The only trouble is a lack of coin.

There is a run on the London and San Francisco Bank, but Manager Latham asserts his ability to meet all demands without trouble. Crowds surround the Bank of California and the suspended National Gold Bank and Trust Company; also the savings banks, but the action of the officers of the latter institutions last night effectually prevents a run on them. The excitement is great.

Evening.—The excitement seems to be subsiding. The crowd on California street is much less than at the opening of business this morning. The run on the London and San Francisco Bank ceased with a large surplus remaining in values. There was a slight run on the Anglo-California Bank at the opening, but soon subsided. The First National Gold Bank reports everything all right. The same may be said of the Bank of British Columbia, Pacific and Commercial Banks. Private banks all report no excitement and everything going on as usual. Generally all the city banks are considered sound except the Bank of California.

Ralston this morning said nothing in addition to the statements of yesterday. Many rumors were current as to the condition of the California Bank. One statement, apparently from good authority, is that the bank will pay depositors in full, and stockholders fifty cents. On the other hand, a prominent stockholder says that the utmost the bank can do will be to satisfy the demands of depositors, and scarcely that.

There has been a little rush at the Hibernian Savings Bank, but the demands were promptly met within the by-laws. Generally speaking, confidence seems returning. It is believed the worst is over. But little uneasiness is felt as to the affairs of either the National Gold Bank, Trust Company or Merchants Exchange Bank. The former reports a probability of soon resuming, though unable to fix the time. There is an abundance of available assets, they are only waiting the reception of coin. The President this morning stated that they paid out about $1,000,000, yesterday, with a small supply left. The Merchants Exchange Bank is believed to be sound and the suspension only temporary.

It is stated on presumably good authority that some half dozen heavy stock brokers are likely to go down. No names are given. No commercial failures are yet reported. A squeeze is expected next Monday—collection day. The savings banks during the day have been doing the usual business, the deposits in some being larger than the disbursements. There was no excitement in that line

The Chamber of Commerce held a meeting this afternoon and decided that it would probably be more injurious than beneficial to take action looking towards a postponement of the ordinary accounts or notes maturing next collection day—Monday. The meeting was very largely attended.

City Tax Collector Austin has $275,000 of protested tax moneys on deposit in the Bank of California, for which he has certificates of special deposits. The directors assured the collector this morning that the money would be paid in a day or two.

A rumor not yet confirmed says Ralston has turned over his private means to the bank.

About ten minutes past five a close carriage drove rapidly to the side door of the Bank of California. A gentleman jumped out in a state of excitement and ran into the bank. In response to inquiries he said he had just left the body of Ralston in charge of an officer on the beach, near the Smelting Works in the north part of the city, drowned.

Later.—Ralston rode to Seilig's Smelting Works wharf and jumped off the dock.

There is great excitement in the city. The death of Ralston overshadows every other topic. From the best information it appears he went to a sea-bathing establishment at North Beach, about 3:25 P. M., undressed went into the water, swam about two hundred yards and disappeared behind a vessel. Soon after the body was discovered floating by the Selby Lead Works. It was brought ashore still alive. Physicians were summoned, but efforts to resuscitate him failed. He died at ten minutes to five o'clock.

Col. Fry, his father-in-law, Mayor Otis and a number of prominent citizens arrived before he expired. Col. Fry and Capt. Lees went to the bathing house and obtained Mr. Ralston's clothes. In these were found a few dollars and his statement to the bank, but nothing having a tendency to show that he committed suicide. The body was conveyed to the residence of Col. Fry.

A boy named Festus Mazzele states that he saw Mr. Ralston before he reached the bath house. He saw him sit on a clay bank near the smelting works. He saw him tear up several papers and throw the scraps into the water. A close search was made for the pieces, but none could be found. He is also reported to have been seen to drink the contents of a phial before going into the water. The general impression is that he took poison before entering the water.

The Board of Directors of the Bank of California held a meeting to-day. Ralston was requested to resign as President and Director, which he did. As regards the financial prospect, in best informed circles it is believed all the banks will go on without further trouble, and that the National Gold Bank and Trust Company and the Merchants Exchange Bank will resume on Monday. The town is full of rumors. The street at this hour (8 P. M.) is crowded with people. It is understood that owing to the excited feeling manifested, arrangements have been made to call out the military to preserve order, if necessary.

The Failure in New York.

NEW YORK, August 27, 1875.

Financial and commercial circles were thrown into a state of the greatest excitement at the opening by a report of the suspension of the Bank of California, and for a time the utmost confusion existed in the Gold and Stock Exchanges. At the opening of the Stock Exchange there was a rush to sell, and for a time the noise and din was equal to a first class panic. A reasonably fair idea of the immense business done, and the din and racket attending it, may be formed when it is stated that up to the board the amount of shares transacted registered over 74,000. The anxiety to sell at first was marked, and prices dropped quickly and severely. After this sudden decline, however, a number of strong buyers stepped into the market, and before the board there was a strong rally.

The news of the suspension of the Bank of California this morning produced considerable excitement among depositors of that institution in this city. The offices of Laidlow & Co., agents of the bank in this city, were from the opening of the doors at an early hour thronged with anxious inquirers. In obedience to instructions received by telegraph no checks were cashed. The senior member of the firm was asked for information concerning the condition of the bank, and of the affairs of Laidlow & Co. independently of their agency for the Bank of California, but he replied that he could say nothing. Among the visitors who were anxious to obtain money for paper were four or five Chinamen, who persisted in lingering about after they had been assured that their paper could only be cashed in San Francisco on presentation at the bank.

Fisk & Hatch say the bank had no interest as investors in the Central Pacific Railroad. The Secretary of the company in this city confirms this statement, but says that the Central Pacific Railroad had an account with the bank, and had made loans from it. He had not heard that the condition of the bank had been considered unsound by bankers. Persons interested in the affairs of the bank are positive in their assertion that the bank will, after a short time, be able to fully satisfy all its creditors. The failure of the Bank of California, while immediately caused by a depositors' run, was directly the outcome of a conflict between two classes of California speculators—one, the Bank of California party, headed by Mr. Ralston and Mr. Sharon, and the other, headed by Messrs. Flood, O'Brien and Hayden left. The latter party have established a bank in San Francisco, called the Bank of Nevada, with a capital of five million dollars gold, and the right to increase to twenty million. Incidental to this fight have been mining properties, known as Savage, the Caledonia, the California, the Ophir, and the Consolidated Virginia. The three latter are known as the "Big Bonanza" mines, and the Bank of California party obtained control of them. In getting this control the stock of the California was run up from 60 to 800. It was then multiplied by five, which would make the highest price 160. It has since declined to 53. The Ophir stock, while they were getting control, advanced from 80 to 700. It was multiplied by five, making 700 represent 140 in new stock. It has since declined to 46. The Consolidated Virginia, during the process of getting control, advanced from 86 to 780. It was yesterday 267. That the bank has been strained of late and pinched has been evident to bankers here, who have shunned their bills, from the fact that in the past sixty days most of the bills offered in this market have been those of other institutions endorsed by the Bank of California. The inference has been that the Bank of California had hypothecated securities with those who lent their bills, and that this borrowed exchange was used to obtain the funds needed to carry on the large speculation of the bank.

In the borrowed bills which have so appeared were those of the Bank of British Columbia and Bank of British North America. The amount of unaccepted bills of the Bank of California on this market is small. The banks' London correspondents were the Oriental Bank, a strong, unlimited institution, one of the best in London, having a capital of £1,000,000 and a reserve of £500,000, so that the direct losses of the failure here are comparatively small.

Laidlow & Co., agents here of the Bank of California, have not suspended, and are paying everything except Bank of California obligations.

The *Evening Commercial* says there is not much change yet apparent from the Pacific coast trouble on the bonds of the Central Pacific road. The first mortgage bonds receded to 102½, the San Juan branch 91, and the bid for the land grants was 95½ per cent. There was a close intimacy between Mr. Ralston and the Bank of California and Messrs. Huntingdon and Stamford, of the Central Pacific road, but nothing is yet known as to how far the latter were compromised by the suspension of the bank. It would be well, perhaps, for buyers of bonds to hold off from the new introduced land grants by the road until more is known of the Pacific coast troubles. There is a large amount of joint account, or partnership, business in merchandise done between this market and San Francisco which for the time may be put to inconvenience by the curtailment of banking facilities at San Francisco, but nothing serious, so far as we are advised, is likely to come of this trouble. The former President of the California Bank is Mr. Mills, a wealthy man, and who is believed to be one of the trustees yet. The trustees are liable, and must pay, so that no loss to the public is likely to occur. It was stated as probable that the bills of exchange will not exceed £200,000. In regard to the speculations of Mr. Ralston and his party in California, a story is current that their recent losses in silver mining stocks and other adventures amount to the enormous sum of $6,000,000. It is not believed that other banking houses on the Pacific coast will be seriously affected aside from the additional suspensions already noted. Foreign exchange was unaffected, the amount of the bills of the Bank of California unindorsed in this market being less than £500,000. Probably most of these bills have been accepted by the Oriental Bank of London, so that the loss here will be very light. A number of bills bearing the indorsement of the Bank of California have been sold in this market, but they are good, because of the high standing of the drawers. Respecting the reported transactions with the Federal Government in the purchase of silver, we hear an emphatic denial. The Government makes its purchases direct from the Consolidated Virginia Mining Company, and never makes advances until the thing purchased is actually in hand. The sum of $3,000,000 recently purchased was obtained in this way, and is now in the assay office in Wall street.

A report is current here that the losses of Ralston and his clique in California on mining stocks and other adventures reach $6,000,000.

A private dispatch from a prominent gentleman in San Francisco says matters look better so far as the best interests of the city and State are concerned. The financial panic is fearful. The losses by the failure of the Bank of California will be heavy.

NEW YORK.

A Californian Attempts to Commit Suicide.

Failure of Soap and Flour Dealers.

NEW YORK, August 27, 1875.

Archibald Baxter & Co.'s Affairs.

Archibald Baxter & Co., who suspended payments a few weeks ago, filed a schedule of assets and liabilities in the County Clerk's office. The assets are about $175,000, and the liabilities in the neighborhood of $250,000. They think they will at least be able to pay sixty cents on the dollar, and if time is given very nearly or quite dollar for dollar. The assignee's bond is fixed at $40,000.

Business Failure.

The firm of Juan De Mier & Co., dealers in soap and flour, of Wall street, suspended to-day. The estimated liabilities amount from $300,000 to $500,000.

Attempted Suicide.

Arnold Arnason, of San Francisco, a guest at the Vandyke House, attempted to commit suicide to-night by shooting himself in the head with a revolver, producing a probably fatal wound.

Tired of Tammany.

County Clerk Walsh this afternoon tendered by letter his resignation as a member of the Tammany Hall General Committee.

THE WEATHER.

OFFICE OF THE OBSERVER,
UNITED STATES SIGNAL SERVICE,
PITTSBURGH, Pa., Aug. 28, 1875—1 A. M.

Probabilities for To-day.

For New England and the Middle States, the lower lake region and South Atlantic States, clear or clearing and warmer weather, with northeast to southeast wind, and stationary or slowly falling barometer.

Attempt to Pass a Forged Check on a St. Louis Bank.

ST. LOUIS, August 27.—A handsomely dressed and fine looking young woman called at the Broadway Bank to-day and presented to the Cashier a letter of introduction from Sipley, Endcott & Co., Chicago, and a check for $8,000, signed by the same firm, purporting to be drawn on and certified by the First National Bank of Chicago. She desired to draw $3,800 in cash and deposit the remainder of the check—$4,200. Mr. Keiser, Cashier, suspecting the woman was attempting to swindle the bank, received the check and letter, and requested the lady to call in an hour, when he would pay her the money. In the meantime he sent to the Third District Police Station for an officer, who shadowed the woman when she left the bank until she reached Fifth and Biddle streets, when she was joined by a man who had introduced her to the bank officers two days before, when he arrested both and locked them up. Telegrams from Chicago say the check is a forgery, thus showing the design was to defraud the bank here.

Shot by a Woman.

JEFFERSON, Ind., August 27.—Henry J. Lawther, who says he was born near Harrisville, Richey county, West Virginia, was shot and mortally wounded last night by Nancy McKee, his paramour, on a flat boat lying at the city warf. The charge of the gun entered the abdominal cavity and the lower end of the breast bone. James H. Moffit, a plasterer of Huntington, Pa., and Jas. B. Houston, a painter of Cincinnati, who were traveling with Lawther, are believed to be accessories to the shooting, and were arrested with Mrs. McKee and locked up. Mrs. McKee says she met Lawther at Gallipolis, where he promised to marry her, but never did, and she was determined to have him. Lawther is not expected to liev.

Centennial Meeting in Wheeling.

WHEELING, August 27.—A large and enthusiastic meeting of manufacturers and other citizens of this city was held in the Opera House to-day, in accordance with a call issued by the members of the West Virginia Centennial Commission. The meeting was called to order by Mayor Sweeny in a brief address. Governor Jacobs was chosen President. Gen. Hawley, President of the Centennial Commission, and Col. A. R. Boteler, spoke at length, explaining the purpose, condition and progress of the great work. A resolution was adopted urging the Governor to appoint a State board to co-operate with the Commissioners, and another resolution urging the Legislature to take prompt action. The Governor will announce the names of the board at an early day.

THE LATEST NEWS.

Condensed Telegrams from All Quarters.

—The Episcopal Council of the Omaha Diocese closed its labors on Thursday evening, and adjourned.

—Abby R. and Susie C. Dalloff, aged sixteen and thirteen years, were drowned at Echo Bath, Mass., while bathing.

—A boiler used in running a threshing machine near Oshkosh, Wis., exploded yesterday, killing William Owens and Henry Party, and severely injuring several others.

—George McNutt, found guilty of the murder of a shipmate, Yealch, an Austrian, on the King Coeleric, was sentenced at St. John, N. B., to be hanged on the 4th of December.

—A large derrick used in laying the foundation of a new pulp mill of the Fall Mountain Paper Company, at Bellows Falls, fell with great force yesterday, injuring four men, two fatally.

—Cornelius Williams, a negro, was hanged at Jackson, N. C., on Friday, for the murder of an old man named William Presson, bridgekeeper at Weldon, some months since. He made a full confession, implicating three other negroes.

—George D. Lord, Jr., one of the New York canal ring and ex-member of the Legislature, was arrested in Rochester and brought to Albany on a charge of bribery in procuring legislation for the payment of $60,000 to a contractor in 1871. He was bailed in $15,000.

—At the suit of George Reed against the Wisconsin Central Railroad Company, George J. Bigelow and John A. Stewart, Trustees, the Circuit Court for Milwaukee county has granted an injunction restraining the company from selling the remainder of its first mortgage bonds.

—The Indian Commissioners are all at Omaha excepting Gen. Terry, who is now at Bismarck, Dakota, but expects to join the commission at the council during next week. Senator Howe, of Wisconsin, has been telegraphed to by Commissioner Smith to act as one of the commisson. He is now at Denver. The party are to leave there to-day for the Red Cloud Agency, via Cheyenne.

—James R. McNeil, a well-known planter living eighteen miles below Memphis on the Arkansas side, was assassinated on Friday. He had just left the field where his hands were at work, and rode out into the road, when they heard a shot fired and saw his horse, riderless, running up the road, following a man on horseback. When they reached the road they found McNeil lying dead, a whole charge of buckshot having entered his breast.

BREVITIES.

....The Mayor's front office is receiving a new Brussels carpet.

....The Board of Health failed to get a quorum for its meeting last night.

....The excursion to Put-in-Bay one week from next Monday promises to be largely attended.

....The shipments of peaches from Eastern markets to this city continue to be almost as large as ever.

....The Humane Society is now after the cattle drovers who keep stock three days on the railroad without food or water.

....A thief entered the residence of Mr. Isaac Mills, Jr., at Braddock's Fields on Thursday night and carried off a coat and gold watch.

....A wagon loaded with peaches was struck by a train on the West Penn Railroad, at Chestnut street, Allegheny, yesterday afternoon, and the vehicle upset and peaches scattered somewhat.

....Davis Edwards, while engaged in painting a tobacco shop on Buena Vista street, Allegheny, yesterday morning, fell on the curb stone, breaking his right arm above the elbow. Dr. Herron reduced the fracture.

....The arguments of counsel in the oil suits growing out of the "bull ring" of 1869 are now progressing before the Board of Masters, at the office of Miller & McBride, on Fifth avenue. Several hundred thousand dollars are involved.

....A special meeting of the commissioned officers of the Fourteenth Regiment will be held at their armory on Wednesday, September 1, 1875, to elect a Lieutenant Colonel to fill the vacancy caused by the resignation of Lieutenant Colonel Haymaker.

....Yesterday morning a man who gave his name as John Onsley who hails from Richmond, Va., was found by a policeman on Lacock street, Allegheny, with one of his legs badly hurt. Upon examination it was found that his knee cap had been fractured and he was removed to the Poor House.

....To-morrow morning a special train will leave the Union Depot at 7:40, city time, for the Loyalhanna camp meeting, stopping at all regular stations, and returning at 10:40 P. M. There will also be a special train leaving Johnstown on Sunday morning at eight o'clock, Philadelphia time.

Where to Buy Pianos and Organs.

Foremost among the music dealers in the Western country we find the Messrs. H. Kleber & Bro., 122 Wood street, Pittsburgh, who keep the largest and best stock of instruments to be found anywhere. We are safe in saying that Kleber & Bro. offer better inducements than any other house; that they take less profits off their customers, and give them better pianos and organs for their money. Again, this firm is unsurpassed for honesty and fairness in dealing; their work may be strictly relied upon, as no money could induce them to misrepresent an article, or take advantage of a customer's inexperience. Messrs. Kleber & Bro. will sell you one of the world-renowned Steinway pianos for a trifle over $400, and equal in tone to any $1,000 instrument of other makers. Or one of the famous Boston pianos of Hallett & Cumston for nearly one-half less than card price—say a $550 for $300. etc. Or a very fine 7⅓ octave agraffe square grand New York piano for less than $275, fully warranted. This latter is the finest piano for the money ever offered. Then they sell the unrivalled Burdett Organs for $65 to $500—the foremost organ in this country. All these goods are first-class, and are warranted for from five to ten years. And we may add that the Messrs. Kleber are first-class men also, and gentlemen with whom it is both a pleasure and a pecuniary advantage to have dealings. Entrust your choice without fear to these gentlemen, for they are above sharp tricks or unfair dealings.

The Novel of the Season!
CHRISTIAN REID'S
"A QUESTION OF HONOR."
"A Question of Honor," by Christian Reid, is praised by the press as a work highly creditable to American literature. The subjoined extracts are from favorable criticisms:
From the Philadelphia Press.
"A new work of fiction by Christian Reid is always acceptable. * * * 'A Question of Honor' is a story of Southern society, with a well-constructed and well-sustained plot, and with a finish which will be unanticipated by most readers."
From the New Haven Register.
"An admirably told story, full of incident and plot, that are in no respect overstrained, and carrying intense interest as the threads of the narrative are caught up and joined together."
From the Louisville Courier-Journal.
"The story is a charming one, and is fully worthy of the author's reputation; indeed, it has secured to us the best and noblest of all that she has yet written."
From the Boston Globe.
"Exquisitely clear in style and elevated in tone, and is worth more than one careful reading."
From the Utica Herald.
"The author has wrought with care, and with a good ethical and artistic purpose, and these are the essential needs in the building up of an American literature."
From the Boston Gazette.
"As a contribution to American fiction, 'A Question of Honor' will more than maintain the already enviable reputation of its author."
From the Buffalo Courier.
"The author of 'Valerie Aylmer' is one of the most successful of those who have tried to construct novels out of the crude material of American life."

GOLD closed in New York yesterday at 113⅛.

THE fast mail train seems at last to be a fixed fact. It is to start from New York on the 16th of September, and run through to Chicago. This will be found a valuable as well as novel feature in mail transportation.

THE reopening of the school issue in Ohio has startled the Democracy, and the fears heretofore prevailing begin to assume the form of a panic. Republicans are estimating majorities now, and are not troubled as to whether the State will be carried or not.

IF the Republican party is being run by money, as charged by the Independent press, can any one explain why the Philadelphia *Times* has not been captured? Isn't it rather hard to charge that money is being employed when so much purchasable material is in the market unbought?

THE failure of the Bank of California created a temporary panic in the New York stock market, but it was speedily overcome, and stocks resumed their usual prices. Gold was advanced one per cent., while railroad stocks were correspondingly depressed. The speedy rally of the railroad securities shows that the failure will exert no permanent influence on the general market.

THE Republicans of Bellefonte held a large and enthusiastic meeting on Friday evening last, which was addressed by William B. Mann, of Philadelphia, Professor Chester N. Farr, of Reading, and others. The record of the Democratic party was fully discussed, while the successes of Republicanism were fully set forth. The Republicans of Bellefonte state that they will show a good record this Fall.

WHAT the military authorities of England would not do, the Queen has done in a very positive manner. In the face of the protests of the Commander-in-chief, her cousin, and the persuasions of the Prince of Wales, her son, she has dismissed Colonel Baker from the army, thus totally dishonoring him, and rendering his re-employment in the English military service impossible. Thus it is proven, after all, that Victoria is Queen, and that crime can be punished in England.

THE Cincinnati *Enquirer* hits off the absurd and utterly false idea that gold is an absolute standard of value, by quoting the *Commercial's* standing head that greenbacks, on a given day, were worth 88 1-5 cents, or 11 4-5 cents less than a gold dollar. It then replies, in July, 1863, the greenback was worth thirty-six cents, or sixty-four cents less than a gold dollar; yet the *Commercial* was sold then at three cents a copy, and sells for the same now. The pertinent inquiry is made, why it does not now sell for two cents? A fair hit.

ROYALTY, in Europe, seems to find the marriage question a topic of absorbing interest just now. Ex-Empress Eugenie is credited with being occupied in arranging a marriage for her son, Napoleon IV., as he is styled; and the young King Alfonso is reputed to have engaged to marry a daughter of Duke Montpensier. Thus affairs wear a matrimonial look in the old country. These royal marriages are the subject of much speculation and negotiation, and usually have greater reference to the political issues involved than to any question of affection between the contracting parties.

THE management of any department of the national Government, which dispenses large and valuable contracts, seems exceptionally difficult. In so simple a matter as the weighing of mail matter, for determining the proper compensation for railroads, frauds have been practiced. Thus, when a contract was to be made with a railroad, the mails for parallel lines would, for a given day, be thrown on it, thus increasing largely the weight on which the contracts would be based. Thus the several roads would be favored, by having estimates on quantities much larger than they usually carry. A man named Safely had charge of these weighings, and the opinion prevails that his operations were not permitted to go without reward.

WE mentioned, some time since, the fact that English banks, with a capital of £42,000,000, had loaned about £420,000,000, or ten times the amount of their capital. This, in large part, illustrated the cause of the many failures in England. Credit had been unduly expanded and failures necessarily followed. As showing the care with which our national banking system is managed, it is worth noticing that while the banks have loaned the country about $1,400,000,000, they have actually a capital of $700,000,000, or one-half the loan to do it on. Thus the bank statements show, of capital stock paid in, $501,568,553; surplus fund, $133,169,094; undivided profits, $52,160,104; total, $691,897,751. The remainder is made up of deposits. These are, individual deposits, $686,478,630; United States deposits, $10,173,389; total, $696,652,019. They are thus safe, and illustrate that the credit system is not overburthened in this country. Meanwhile, this system, while it has cost the Government, from its inception till now, $3,750,000, has paid the Government $61,370,738.79, and as much more in State, county and municipal taxes.

THE wheat movement at the West and Northwest has actively begun at last. Some large amounts were sent to Davenport and other towns of Central and Northern Iowa, and also to Winona and many other points in Minnesota. Some of the bankers from Winona and other Northwestern points have come to Chicago to make arrangements with their correspondent banks there for large advances, which they expect to use immediately to pay for the wheat which we learn is beginning to come into the country stations and the secondary cities quite freely. Throughout Southern Minnesota and Northern Iowa the farmers are selling their wheat at an average of $1 per bushel in large quantities. As to the amount to come forward, a prominent railroad official—who has recently made an extended tour of observation in the Northwest—says that the territory penetrated by the Northwestern and the Milwaukee & St. Paul Railroads there will be 12,000,000 bushels more wheat to come to market this year than ever came from the same territory before. These are important facts, and as the wheat is now not only past all danger, but is all in fine quality, they give the assurance of prosperity in the Northwest this Fall, and show the probability of a great increase of business soon. Such are the statements of the Western press, and it may be added, they estimate the total yield of wheat in the Northwest at a very high figure.

BANK OF CALIFORNIA.

Banking, on the Pacific coast, is, or has been, done on a specie basis, and under State laws. The national banking system was not accepted, and the proud superiority was claimed, over the Eastern States, of being able to do business and transact banking,—not on "rags," but on solid specie. "No failures can occur here," proudly declared the Bank of California, through Ralston, its President, when the panic brought failure to three or four national banks at the East. And those who argued that we could never have a firm business basis until we put aside greenbacks, and come back to gold, were fond of pointing to the Bank of California, as illustrating the absolute stability of fiduciary institutions in specie-paying States, as contrasted with such affairs in currency-using States. We have steadily argued that there was nothing in this that affected the stability of banks and business houses; that their success or failure depended, not on the kind of currency in use, but on other and totally different conditions. Now that our great Dagon, the Bank of California, has fallen, we may very properly improve the occasion by a few pertinent reflections.

The Bank of California had in its favor a number of important facts. It was possessed of large capital, and could and did obtain high rates of interest on its loans. San Francisco is essentially a speculative, not to say gambling city. Hence fabulous rates often were paid for short time loans, and good security given. Thus the bank made money rapidly. It also dealt in mining stocks to some extent, making money in this way. It did a large and profitable exchange business. Ralston, its President, lived in a princely manner, entertaining in extravagant style, the bank paying the expense, thus drawing in the large exchange business with the East. Yet with all these advantages it has failed. We do not assume to know the special reasons for this. It may have been legitimate losses, or lack of specie, or gambling. At all events, it failed, and we venture the prediction that the failure will be most disastrous.

We have, scattered over the country, a large number of national banks, which represent the system of currency, of which greenbacks form a part. These have less advantages than had the Bank of California, for making money; and the probability is that they actually made less than did it. Yet they have passed through the same storms, have been surrounded with more of bankruptcy than it, and are sound and safe to-day. These "rag" institutions are, for some reason, more carefully and safely managed, and are more successful, with less profits, than was the Bank of California with larger profits. Can any sane person resist the conclusion that our national monetary system, including the greenback currency and national banks, is the best this country ever knew? Even when national banks have failed, the holders of its bills were perfectly protected, by the bonds held by the Government, and we remember of but one or two instances in which depositors failed to realize full returns. We venture that national banks will soon replace the broken banks of California.

Not only loss of money, but loss of life, has increased the excitement over these monetary troubles. Yesterday, Ralston, President of the broken bank, goaded to frenzy by the shadows, which seemed to be settling around him, sought surcease of sorrow by jumping from the dock into the ocean, and finding a watery grave. The sad affair gives an additional shading to the darkness of the picture of the panic.

ITEMS OF INTEREST.

PRESIDENT GRANT will be the guest of Senator Conkling at the meeting of the Army of the Cumberland, in Utica, September 15th and 16th.

SEVEN thousand women and children are now fugitives in Croatia, in consequence of the Herzogovinian insurrection. The insurgents have burned the towns of Focucia and Rorito.

A DISPATCH from Europe states that Mr. Wade, the British Minister at Pekin, has asked the Government to reinforce the British troops in China, as in his intercourse with officials at Pekin he has been treated with insolence. The demands which he has made for compensation for the murder of Margary has been thwarted and treated with contempt.

TRAIN No. 3, on Thursday, one mile east of Corning, on the Erie Railroad, met with a serious accident, caused by a switch being left open. It ran into the Blossburg coal train on a side track. Both engines were badly smashed; also a mail car and two baggage cars. The first and second passenger coaches were thrown from the track. Fortunately no one was hurt.

DISPATCHES from Philadelphia state that the Executive Committee of the National Union League held a session on Thursday. The meeting was called to order at one o'clock and adjourned at four o'clock. Ex-Governor Newell, of New Jersey, presided. Measures were discussed looking to the organization of a League in the South, and a vigorous prosecution of work against the Democracy in that section. The aid of all loyal whites who will agree to work with colored Republicans will be invoked.

Somebody's Darling.

"You can smile and smile," remarked the Court, as a girl about eighteen years old nipped out, "but the law wants to know why you threw a pop-bottle through a window on Beaubien street, last night."

"Has any one a right to make faces at me?" she asked.

"How?"

"I was going past Mrs. Johnson's, and she made up a face like this ——, and then shook her fist at me like this ——, and then I flew mad."

"Well, Miss Prim, it is your duty to pass right on without seeming to notice her, even if she had stood on the front steps and called you a strawberry blonde, or yelled out that your pull-back dress didn't pull for shucks. There's my clerk over there. Almost every day as he passes along the street some one calls out "Shoot that necktie!" or "See those little cane!" but he never lets on to hear. He knows his duty, and he knows what law is!"

"I won't do no such a thing again, sir," she said.

"Well, I shall not punish you for what you are not going to do, but in this case it's $10 or sixty days."

She smiled as sweetly as ever, nipped back into the corridor, and was last seen writing a message to her sister on a sheet of brown paper.

How to Eat a Cantaleup.

An exchange has this, which comes in play at the present time in our locality: Our readers will probably exclaim, "Only give us the melon, and you need not instruct us how to eat it." Yes, but there is a "good, better, best" way of doing things, and we propose to tell you the best way of doing it. As Mrs. Glass says in her cookery book, first catch your hare; so the day before eating the melon, select one, the stem of which is cracking away from the fruit, and which is also giving out that delicious aroma peculiar to it. Put it in the refrigerator until the next day at breakfast or dinner, cut it in two, lengthwise, take out all the seeds, into each half put a tablespoonful of strained honey, and scoop it out with a spoon, dipping each spoonful into the honey, and eat. If, after eating quantum sufficit, you do not wish your throat was a mile long, and every inch of it a palate, then we can only say that you are wanting in gustatory taste, and our advice is wasted.

The Secret of Their Success.

Moody shut down on the publication of his life by a Hartford house as soon as he got home. While in Birmingham he was approached by a photographer who offered him a considerable sum of money for the privilege of taking his picture, which he refused, with the remark that he would readily give $2,500 to have all existing pictures of him destroyed. Strange as it may seem to the average Yankee, this man puts himself last in all things. It is simply because he and Mr. Sankey have enough of the primitive Christian, true religious fire in them to do the work for work's sake, that their sincerity is doubted. The ordinary American cannot bring himself to understand how any man can do anything in which the principal figure is not No. 1—can do work without some ulterior object, ordinarily money, and always more or less selfish.

SATURDAY NIGHT.

[FROM "HOURS OF FEELING AND FANCY," BY JAMES M. MACRUM, ESQ.

It is Saturday night! It is Saturday night!
And those whom we love are again in our sight.
Ye hours your sweet courses rejoicingly hold—
Let the ballad be sung, and the story be told.

Joy beams from each face, and the heart is not sore;
For the toils of the week are remembered no more;
Our neighbors and friends gather round the sweet hearth,
As happy to night as the kings of the earth.

The shade in the sunshine, the idelesse of ease,
Are for favorites whom Fortune was studious to please;
They pertain not to us: it is ours as we may,
To encounter the heat and the toil of the day.

But why envy others? Whatever may come
We have moments of dearest enjoyment at home;
We have friends, too! and meeting them yields a delight
That still makes us welcome our SATURDAY NIGHT.

As it was from the first, even so is it now—
Man eats not, except by the sweat of his brow;
But before there were tyrants our lot was not hard,
For Heaven will'd that Labor should have its reward;

A blessed reward in the presence of health,
A possession that never was purchased by wealth;
But which, as to soften the rigor of toil,
Like an heir-loom, descends to the sons of the soil.

How easy to suffer the weight of a curse
That ends in a blessing! But man has been worse,
More stern and more cruel, than Nature could be;
Nor is Fate so unsparing a tyrant as he!

Oh, the length of the time we are wearing these chains!
Hope is dead—it is Patience alone that remains,—
And the smoothness of usage—which makes us profess
They are lighter because they are galling us less.

Let us wear them and bear them as long as we can;
Endurance is virtue—and *virtue is man*.—
Oppressed by the wealthy and spurned by the proud,
We will yet bow to both, as our forefathers bowed.

What must be, we suffer: the dusty and rough
Of life's journey is ours—but it does well enough;—
We jog on as folk that are careless to stray,
And Saturday nights are our rests by the way!

Panic at Saratoga.

"Mac" tells of a panic that occurred in a dining saloon at Saratoga. He says: "One of the waiters had secreted a standing dish of cut peaches for a favored guest, by placing the dish on a chair and pushing the chair up to the table's edge, the long ends of the dinner cloth falling over the whole and adding a deceptive air of innocence to the region of bliss. Along came a curled darling of society in snowy white flannel, heavily jeweled, thickly pomatumed, and powerfully scented—one of your "pawtic-law fellaws," in fact. The waiter was away for the moment. Our Adonis was peering with his one-eyed glass at an angel at his right, with his left hand he drew out a chair, and sat down into those peaches!—the dish snapped, the peaches sizzed and spurted to every point of the compass, and the youth sprang up with such force that he nearly upset the table. The din was as loud as Gabriel's horn, and turned the waiters pale and diners black in the face. Our flannel-suited friend got up from the floor looking like a cow-spotted circus horse. I thought I could swear. You should have heard the youth of the peach disaster as he went down the main aisle of the dining room dripping with juice and broken crockery. It was distilled profanity."

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, August 28, 1875.

The failure of the Bank of California was the absorbing topic in financial circles yesterday. Its probable influence, significance, and the like, were fully ventilated. In several banking circles we heard the opinion strongly expressed that, so far as Pittsburgh is concerned, we have about touched bottom, and that no failures of consequence are to be dreaded or anticipated. Our manufacturers are observing great care and the most rigid economy, and thus are realizing a small profit on their work. This, while not enough in itself to justify running, is enough to keep them in good condition pending the revival of business and improvement of prices. The heavy Baltimore failure yesterday would have been considered a serious matter, but for the overshadowing importance of the Bank of California failure. The only remark the Baltimore failure elicited was that houses dealing in articles of fluctuating value are seriously imperiled; but manufacturers who deal in what, though low, has a tolerably regular value, are safe.

NEW YORK, August 27, 1875.

Gold opened at 114, fell to 113¾, rose to 114¼, and at the close declined again to 113⅞. The rates paid for borrowing were 7 and 6 per cent. per annum, and 1-64 and 1-32 per cent. per diem. Loans at the close were made flat. The advance in gold was caused rather by rumors of a conflict between England and China being imminent, but as these rumors were subsequently denied, and as a majority of the "shorts" had covered their contracts, the market declined, and was without activity. Governments were strong. Railroad bonds were firm. State securities were quiet.

Stocks opened with a decline of from ⅛ to ⅝ per cent., as compared with the closing quotations yesterday, except in the case of Panama, which fell off 6 per cent. on an impression that the stock is largely held in San Francisco. Later the remainder of the list declined ⅛a2 per cent., the latter Western Union. Lake Shore touched 60, Western Union 81¼, Pacific Mail 37, Northwest 40¼, preferred 54¾, St. Paul 37, preferred 63¾, Ohios 18¼, Union Pacific 72¼, and Michigan Central 65. A recovery of ⅛ to 1¼ per cent. took place, Western Union reaching 83, Pacific Mail 38, Lake Shore 60¾, Northwest 41¼, preferred 55¾, Rock Island 107¼, St. Paul 37⅛, preferred 63, Ohios 18⅞, and Panama 131.

At the second call the market was firm, and at the close was strong, and with one or two exceptions prices showed a recovery of ¼ to 1¾ per cent. from the lowest point. The greatest advance was in Western Union, which rose to 83 on a report that a consolidation with the Atlantic & Pacific Telegraph was effected this morning, the latter company being guaranteed 7 per cent. on a capitalized basis of $2,500,000. Pacific Mail advanced to 38¼, reacted to 37¾, and closed at 38¼. Lake Shore ranged between 60 and 60¾, and closed at 60⅛. Northwest closed at 41¼, preferred at 55⅞, and St. Paul at 37⅛, being a reaction of ⅛ per cent. from the highest point. Union Pacific closed at 72¾. St. Paul preferred at 63¼, and Erie at 16—the highest prices made. Missouri Pacific declined to 47, Hannibal & St. Joe common to 23, and New Jersey Central to 110¾. Panama closed at 130, against 140 yesterday. The market at the close gave indications of a further advance to-morrow, unless further financial disasters should be announced. The transactions on the Stock Exchange were 182,000 shares, of which 40,000 were Pacific Mail, 56,00 Western Union, 20,000 Northwest common, 50,000 preferred, 6,000 St. Paul common, 60,000 preferred, 6,000 Erie, 3,200 Lake Shore, and 3,200 Ohios.

LONDON, August 27—3 P. M.—The market shows a fair degree of firmness, and in most cases is quotably higher. Consols are quoted at 94⅞. Union Pacific sixes advanced ½ per cent.; also Union Pacific land grants. Pennsylvania Railroad declined ½. Reading Railroad advanced ½. Virgina State bonds, consolidated debt, show an advance of 1 per cent. since yesterday. United States Government bonds are firm, but not quotaby higher. New York Central is quoted at 98, and Illinois Central at 88½.

Chicago Seed Market.

CHICAGO, August 26.—There was a good demand for prime timothy, and prices ruled steady and firm. The offerings of the above mentioned grade were light, but there was an ample supply of common qualities on the market. Sales ranged at $2,40a2,80, according to quality; prime new quotable at $2,70a2,75, and old do at $2,80. The usual quietness again prevailed in the other descriptions, and there were no changes noticeable. Clover quotable at $8a8,15 for common to prime medium, and flax at $1,60 for good crushing.

Indianapolis.

INDIANAPOLIS, August 27.—Flour $6,50a8,00. Wheat: red new 75ca$1,20; old $1,30a1,35. Corn: ear 65c; shelled 66¾a67c. Oats: new 40a45c.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Aug. 27, 1875.

The leading markets present nothing that is really new or important; business is very generally reported dull, although it is about all that can reasonably be expected under existing circumstances, and it is hoped and expected that there will soon be an improvement, notwithstanding the outlook is not as encouraging as could be desired.

BUTTER—There is scarcely as much inquiry as there was, and with increased receipts and offerings, the market is weaker; prime to choice solid packed, 23a25.

BEANS—Prime mediums quoted, in a small way, at $2,10a2,15 per bu.

CHEESE—The general tone of the market is weaker, but with a light stock and limited receipts, prices are still maintained—prime Ohio Factory in job lots, 11a11½.

EGGS—There is some inquiry for fresh stock, of which the market is almost bare, but old stock is hard to dispose of at any price: strictly fresh, guaranteed as such, quoted at 15a16.

FRUITS—Peaches were in better supply to-day, and prices ruled lower in consequence; quoted at $1,25a1,75 per box, as to quality. Apples in light supply and firm at $3a4 per bbl., although the demand is only fair. Blackberries, $1,50 per pail. Water Melons, 10a20c each.

FLOUR—The market continues quiet and unchanged. Regular sales, in a jobbing way, at $7,25a7,50 for good to choice brands of old winter and spring wheat.

GROCERIES—The reported failure of Stirling, Ahrens & Co., a large sugar importing house of Baltimore, with liabilities amounting to two and one half million of dollars, created, as might be expected, quite a sensation in the trade, although no one here has been, or is likely to be, injured thereby. What effect, if any, this will have upon the market for Sugar, remains to be seen. Coffee continues as firm as ever.

GRAIN—There is a continued steady demand for Wheat, and with no stock and very little coming forward, prices are firm but unchanged; old red winter, on spot, $1,50a1,55; new do $1,40a1,45. Chicago was a little offish on Thursday. The Oat market is weak, caused by the very liberal receipts within the past few days, although prices are without quotable change as compared with yesterday; quotable at 48a49c on spot for prime new. This grain could not be laid down here from Chicago at quoted rates, but we do not now depend upon that market for supplies. Corn continues in light stock, but there is not much call for it; shelled, on track, 82a83c; ear 83a85c, according to quality. Rye continues dull and nominal at $1.

HAY—Continues to come in freely and prices are weak and lower; selling from country wagons at $10a16 per ton, according to quality and condition. Baled is also weaker, notwithstanding the stock is small.

POTATOES—Continue very dull and commission men report that it is almost impossible to dispose of a car load lot at any price; the last sales reported, on track, were at 35a40c per bushel. Sweet Potatoes quoted at $4a4,50 per bbl. for Baltimore and $5a5,50 for Jerseys.

PROVISIONS—The market continues moderately active, but devoid of any new features deserving of special notice.

Hams—Extra S. C. lb	14¾	Lard-Prime Leaf in tierces, lb	14⅝

POULTRY—Live Chickens, 50a60c per pair.

RAGS—Good mixed, 2¼a3.

SEEDS—Timothy Seed quoted at $3a3¼, and Clover Seed at $8,50a8,75.

THE IRON TRADE.

Pittsburgh.

PIG IRON.—There is nothing particularly new to record, excepting a firmer feeling on the part of furnacemen, who, in view of the light production and diminished supply, are hopeful of being able before long to realize better prices. As yet, however, the mills are still able to buy about all they want at $24, four months, but they are buying very sparingly only as their necessities require, but some producers are, and have been for some time past, holding for an advance, refusing to accept the figure in question. The mills with but few exceptions, have very light stocks of raw iron, and, as noted in our report of last week, the stock in the hands of commission merchants is also very much curtailed, estimated, in round numbers, at 25,000 tons. The immediate future of the market is very uncertain, and while the general outlook for some time past has been regarded as favorable to the producer, it is feared that the recent large failures will have a depressing influence. Following sales were reported:

CONNELLSVILLE COKE.

30 tons No. 1 Foundry	$26 50	4 mos
20 tons No. 1 Foundry	25 00	4 mos

CHARCOAL.

250 tons Gray Forge	24 00	5 mos
100 tons Close Grey Neutrel	23 00	4 mos
170 tons Gray Forge	24 00	4 mos
200 tons Gray Forge	24 00	4 mos
300 tons Gray Forge	24 00	4 mos

MANUFACTURED IRON.—The most important and about the only new feature to report is that, at a meeting of the Iron Association, yesterday, it was agreed to reduce the card from two and five to two and four-tenths, 60 days, which is in reality an advance instead of a reduction, as the most of the sales for some time past have been within the range of 2,20 to 2,30, and in some instances as low as 2,10 and 2,15, Pittsburgh classification. Steps have been taken toward getting up an entire new card; we understand a committee has been appointed for this purpose, and will probably report at the next meeting, which takes place on next Thursday week. Trade, while it is not active, is about all that can be expected; nearly all the mills are running, some of them double turn,—the great source of complaint is in regard to prices, which were down to a point that did not cover actual cost of manufacture.

NAILS.—The Nail trade is about all it usually is at this particular time; orders have not commenced to come in very freely as yet, but it is probable they will within the next few weeks, and with this in view nearly all the factories have been started up, and stocks, both here and at Wheeling, are reported light. Prices quoted firm at $3, sixty days, with 10 cents per keg rebate on lots of one hundred kegs and upwards, and two per cent. discount for cash. Horse Shoes quoted at 4½c per lb. cash, and Mule Shoes, 5½c.

BRITISH IRON MARKET.

A cable dispatch, under date of the 25th, reports as follows:—Scotch Pig.—The market has been depressed since last report, but rallied toward the close, and prices are now steady. The following are makers' quotations:

Gartsherrie No. 1	69s 6d
Coltness No. 1	72s 6d
Glengarnock No. 1	68s 0d
Eglinton No 1	62s 6d

Manufactured Iron.—There is but little business doing, and prices are declining. Best Staffordshire Bars are quoted at £9. 10sa£10. Rails.—The market remains without change.

NEW YORK.

American Pig.—The general stagnation so long pervading the Iron market continues, and little, if anything, can be written in regard to the condition of the trade. The production still goes steadily on, and stocks are accumulating somewhat. Some makers are still talking of a further blowing out, but are deterred from so doing by the cost and trouble it would take to start up again should any revival of demand make such action necessary. The more prominent Lehigh companies are disposed to remain pretty steady in their asking views, and are obtaining it for the small lots selling, but it would be difficult to sell any quantity at such figures. We hear of sales during the week of 150 tons Allentown at $26; 100 tons Lehigh Valley at $26,50; 350 tons Thomas at $24,50a26; and 500 or 600 tons ordinary grades on private terms. We quote: No. 1 Foundry, $26a27; No. 2 Foundry, $24a25; Gray Forge, $22a24; White and Mottled, $21a22.—*Iron Age.*

PHILADELPHIA.

There is nothing of novelty and little activity to report in the market here. Transactions in Pig Metal are comparatively light, although it is generally conceded that bottom prices have been reached, and that all grades of Iron must advance between now and the close of navigation. Still the improvement in demand which was expected by this time has not come, and some brands of Pig Iron can be bought at prices considerably below quotations. The inquiry continues fair, however, for Pig Metal, and without an increase of stock prices would improve. It is, however, officially announced that the Reading Coal and Iron Company has offered to supply furnaces on the line of the Reading road with coal, ore and limestone, and to take the product of Pig Metal at a contract price. This offer is, it is said, being accepted by several furnace owners, and may result in the production of considerable stocks of Pig Iron at low prices, which must be stored, and which, in expectation of its being at any time put on the market, will tend to restrict consumers from purchases beyond immediate wants. Manufactured Iron is dull, and mill owners complain that there is no margin at present prices, nor demand sufficient to justify an advance. Rails are in best inquiry, but prices rule in favor of buyer, while the stronger companies invariably purchase Steel Rails, for which prices are comparatively low and tending downward. Old Rails are in better request and Scrap comparatively scarce, with transactions at somewhat better prices.

The following prices are current in this market, viz.:

Pig Metal.—No. 1 Foundry, $26; No. 2, $24; Gray Forge, $22,50a23. Bars.—2.6c per pound.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, August 27, 1875.

The market for Crude was much firmer, and, as compared with yesterday, prices have still further advanced; immediate shipment quoted at $1,20a1,22½, and Conduit certificates, 92 1-2a95c. Refined also firmer, but not quotably higher; 11c delivered in Philadelphia and Baltimore; 8¾c on Penna. cars here, and 9c on Connellsville. Trade, however, continues very dull, as refiners are indisposed to either buy or sell in the present unsatisfactory condition of affairs.

The Barrel market remains as last quoted; countries, $1,15a1,25; city make, $1,35a1,40.

At New York on the 24th inst. there was a capacity of vessels loading of 154,900 bbls and 94,500 cases refined; amount on board, 25,400 bbls. and 10,000 cases; required to fill, 129,500 bbls and 84,500 cases. At Philadelphia, Aug. 23, capacity of vessels loading, 165,100 bbls. and 11,000 cases; on board, 31,500 bbls. and 1,800 cases; required to fill, 133,603 bbls and 9,200 cases. Stock on hand, 21st inst, about 52,500 bbls. At Baltimore there was on August 23, a capacity on berth of 47,000 bbls. of refined oil, with 2,000 bbls. on board, leaving 45,000 bbls required to fill. There is also a capacity on berth for 2,500 bbls. naphtha, with 1,300 bbls. on board, leaving 1,200 required to fill.

HOME NEWS.

An Unfortunate Carpenter.

About 3 o'clock yesterday afternoon as some men were engaged in lifting a large piece of timber off a wagon at the Exposition building, Allegheny, it fell and struck a carpenter by the name of John Reskka, fracturing his leg. He was removed to his home on Troy Hill and medical aid summoned. The carpenter is a German, and has a wife and several children, and yesterday was his third day at work after a three months' sickness.

Excursion to Lake Erie.

On Monday, September 6th, there is to be a grand excursion over the Cleveland & Pittsburgh Railroad as far as Cleveland, and then by the steamer to Put-in-Bay. The price of tickets for the round trip have been fixed at the exceedingly low price of six dollars. To those who have not been away this summer, and, indeed, to those who have, here is an opportunity for sight-seeing, railroading and a lake excursion, into the bargain at an extremely low figure. Full particulars will be announced hereafter.

Burglary on Fifth Avenue.

At an early hour yesterday morning, a house located at No. 326 Fifth avenue, and which was occupied by Assistant Controller Livsey and Col. J. B. Moore, was burglarized—a gold watch besides fifteen or twenty dollars in money being taken. Col. Moore's family are away from the city, but nothing farther than that already named has been missed. The thieves escaped without being detected, although Mr. Livsey heard a noise in the house and got up but only in time to witness their hasty retreat.

Obituary.

Mrs. Sophia, wife of Jacob Seibert, one of our most estimable citizens, died yesterday morning at her residence, on Pennsylvania avenue, Allegheny City. This sad event was not wholly unexpected, as the deceased had, for three or more years, been an almost constant sufferer. We have known the family since 1840, and suppose Mrs. S.'s age to be about 55 years. The death of a lady like her always seems untimely. Her many admirable traits of character as wife, mother and neighbor, and her exemplary service and zeal in all church work, had endeared her to all who knew her. She was a consistent and devoted member of the English Lutheran Church in Allegheny, of which Rev. J. G. Goetman is pastor. In the circles, whether of relatives, friends or co-workers, in the church of her choice, she will be greatly missed and sorely lamented.

The Exposition.

Official announcement is made elsewhere of the time for the formal opening of the exposition and the regulations pertaining thereto. It is now certain that the buildings will be so far completed as to permit of the formal opening on October 7th. The work is being pushed forward with all possible haste, and is being well and rapidly done. The buildings when completed will afford over twelve acres of space for visitors, and will be so arranged as to give the fullest opportunity for a display of the branches of the arts and manufactures, farming implements, stock, &c. The managers are at work arranging the premium list, which in the aggregate will foot up over $50,000—the heaviest amount ever given at any initial exhibition of the kind in the country. Care will be taken to secure variety in the class of goods exhibited, as well as a full line in each department, so that the visitor may be enabled to see at a glance products of our looms, and factories and farms. Already the applications for space are coming in in large numbers, and there has been enough engaged to ensure the success of the Exposition in the way of display. The whole affairs promises to be one of which our enterprising and thrifty community can feel proud. Fuller details may be gotten from the announcement elsewhere made in our advertising columns, and all desired information can be obtained by application to the proper officers.

NARROW ESCAPE.

An Allegheny Policeman Shot by a Brother Policeman.

An Allegheny policeman made a narrow escape from being very seriously injured yesterday morning. Officers Charles Jones and John McCurry met at the Lincoln engine House in the Ninth ward, when Jones took a revolver, which he had taken from an intoxicated woman, and stepped out into the yard and began shooting off the cartridges. The third one failed to explode after he had snapped the hammer upon it, and he turned around to speak to McCurry, who was in the engine house when the cartridge exploded, it having hung fire. The ball struck the door frame in the engine house and passed through part of it and then glanced off and struck McCurry on the left side of the abdomen. Fortunately its force was about spent and it did not penetrate the skin, but only left a large black bruise on the side. McCurry was very much frightened at first, as the pain caused him to think that he was severely wounded.

AMUSEMENTS.

Fifth Avenue Comedy Theatre.

The programme at this theater comprises such a variety of performances that one can hardly fail being pleased at something, and the chances are that the visitor will enjoy everything put before him. In her own peculiar line Blanche Selwyn has no equal, and the three songs she gives every night are inimitable, not in point of melody or artistic singing, but in the unapproachable and indescribable manner in which she apparels them. Alice Ross and Ed. Murray, in their Irish songs and dances are excellent, and the same may be said of nearly all the balance of the company. Next week Milton Noble appears in the new play of "Jim Bludsoe," which is highly sensational in style.

Trimble's Varieties.

Among the favorites whom Mr. Aims introduces every evening are Angie Schott, Lizzie Johnson, Annie Hall, Mary Olive, Manchester and Jennings, Miles Evans and a number of others well known upon the variety stage. Cool Burgess continues to draw well and his popularity shows no evidence of diminution. Two performances will be given to-day as usual.

HORRIBLE ACCIDENT.

A Young Man Sawed in Twain.

An accident fairly blood-curdling in its horrible details occurred at Stratton's mill in Evansburg, Mercer county, about eleven o'clock on Tuesday forenoon, by which Charles Wisner, aged about sixteen years, a son of Peter Wisner, of that place, was instantly killed, and his body shockingly mutilated. He was employed in and about the mill, and during the temporary absence of the tail sawyer had taken his place. Directly over the circular-saw is a pulley over which runs a heavy elevator belt, which passes down below the saw-table and carries the sawdust outside the mill. The young man, whether in fun or to start the belt, will never be known, as his actions were not noticed, clasped his hands over the elevator belt, and before he could free himself was carried up by his arms to the pulley, one of his feet in the trip being caught in the ascent by the saw, and the heel instantly severed. He clung to the belt with the grasp of desperation, but the heavy machinery was scarcely effected by his weight, and he struck the pulley with such force as to break the fingers of both hands. With this his grasp failed him, and he dropped heavily across the large circular saw beneath running at the highest speed. The next instant his mangled corpse lay on either side of the saw, which had cut him cleanly through diagonally from shoulder to hip. His heart was divided, one arm cut off twice, one leg cut off, and a large gash cut in his head. The frightful accident cast a gloom over the entire community, and his bereaved parents receive the sympathy of all. Young Wisner had intended quitting at the mill on the evening of his death.

BURNED TO DEATH.

Shocking Accident Yesterday Afternoon at Hazelwood.

Jessie York, a domestic in the family of Mr. E. W. Bausman, who resided at the corner of Sylvan and Hazelwood avenues, in the Twenty-third ward, lost her life yesterday and destroyed a house and its contents by attempting to make a fire with petroleum. She was up stairs with the nurse, and about three o'clock started for the kitchen to build a fire with which to get supper. Nothing more was seen or heard of her until the ears of the nurse were greeted by a loud explosion, when she hurried down stairs to learn what was the matter, and arrived there just in time to see Miss York fleeing from the house, her body wrapped in flames. The burning girl fled down through the lot connected with the house, and Rev. A. O. Bartholomew, who lives adjacent, observing her, and appreciating the position she was in, grabbed up a quilt and ran to her assistance. He threw it around her and smothered the flames, but not until she had been so badly burned that recovery was utterly impossible. He then carried her into his house where she died about four o'clock. The Coroner subsequently held an inquest and the jury rendered a verdict of accidental death. None but Miss York and the nurse were in the dwelling at the time of the accident, Mr. Bausman being at his work as a clerk for Jones & Laughlin, and his family absent on a visit. The building, which belonged to Hill Burgwin, Esq., and which was valued at $1,500, was totally destroyed, and Mr. Bausman's loss in the destruction of his household goods will amount to $1,000. There was no insurance in either case. It is said that Miss York was to be married this evening. She was twenty-three years old.

***Mr. Wm. Semple, the Allegheny dry goods merchant, arrived home yesterday from a trip to Scotland. He has been considerably freshened up by the jaunt across the waters.

THE NIAGARA EXCURSION.

Return of the Travelers this Morning—What They saw on Their Trip—The Wonders of the Falls in General and Detail—The Success of the Excursion—A Very Pleasant Journey and a Safe Return.

This morning at half past one o'clock, the excursionists who left this city on Thursday morning for Niagara Falls, pulled up at the Union Depot wayworn, and weary with travel, but delighted with the pleasures of the trip. Of the "run over" to the Falls, our special telegram yesterday gave particulars, from which our readers learned that the run was made pleasantly, rapidly, and safely, and that the sight, seers, almost as soon as they landed, commenced the tour of the wonders of Niagara. The party consisted of about three hundred people,—the large majority being from this vicinity.

Our Representatives.

When the landing was made at Niagara, and the excursionists had all gathered in the depot, it was found that the Smoky City and vicinity was represented, among others, by the following list of ladies and gentlemen: J. C. H. McCreery, J. T. Johnston, J. C. Brown, W. J. Ingham, G. W. Clark, Mrs. W. W. Wallace, Miss E. Wallace, G. S. K. Cramer, D. M. Pigmore, F. P. Case, J. H. Doppold, H. Irwin, Jr., Mr. and Mrs. W. At the Falls.

On the train, before the place of destination was reached, all parties had been supplied with tickets, insuring them admission to the various places of interest, so that all confusion in that direction was thus avoided. When the debarkation was made the company separated into small groups of friends, each following its own inclination. The majority first headed for the hotels, from whence in a few moments they emerged, with the dust of the journey brushed away, fresh as larks, and ready for the grand round. There was no settled programme and the excursionists having their tickets, sought out any of the objects of interest which to them seemed most attractive. The remainder of the afternoon and into the night until darkness prevented further meandering, was spent in sight-seeing. The larger number of visitors seemed to be chiefly interested in the Islands and the immediate neighborhood of the Falls, on the American side, and they found enough there to keep them busy until the evening shadows put an end to their wanderings.

In the evening the visitors distributed themselves among the hotels, and found luxurious accommodations, as some of the leading hostelries had been selected for them, and their every want was abundantly supplied. The arrangements for reduced rates were successfully carried out, and proved eminently satisfactory in comparison with the general run of hotel charges. The invasion of the town on Thursday evening had been a matter of considerable note, and on Friday morning the pleasures of the day were pleasantly introduced by a few fraternal words from the Niagara Falls *Register*, which in this wise made mention of the arrival of the party:

Complimentary.

"One of the finest excursions that has visited the place this season arrived yesterday at half past three from Pittsburgh, Pa., numbering in all about 300 persons, chiefly from the city itself. The excursion came by way of the Erie and Pittsburgh Road, arriving at Erie at 12:10. The trip from Erie to Buffalo was run in two hours and fourteen minutes, the fastest run made on the road this summer. The excursion consists of the finest people in Pittsburgh, and they express themselves as most happily disappointed in the Falls. Many were profoundly convinced that, notwithstanding the pleasant plan projected by the Messrs. Rupert, there would be found a lurking dodge somewhere, and that the question of their being "gouged" was a foregone conclusion. About 300 people are now convinced that Niagara Falls is not a swindle. We hope that they will take pains to inform their friends of the same. The excursion will remain until three o'clock this afternoon. The trip is made at great reduction and is so popular that it will undoubtedly be followed by many others. The excursionists are scattered among all the hotels. There is an unusual large number of representatives of the press with this excursion. We welcome the people of Pittsburgh, and hope the acquaintance being formed may prove lasting and agreeable."

"Doing the Sights."

Early breakfast and out again, was the order of the day, Friday morning, and the hackmen's faces were wreathed in smiles as they anticipated a rich harvest before them. The Jehus, however, were not in an extortionate humor, and for the most part the vehicular accommodation was secured on reasonable terms. The greater number of the excursionists having "done" the American side pretty thoroughly on Thursday afternoon, set out to make a general tour of all the points of interest in regular order, and all the morning was spent in making the grand rounds. The chief points of attraction were the Whirlpool and Whirlpool Rapids. Then back to the Canada side and a view on the way of the Suspension bridges, then the Horseshoe Falls, on the Canada side, and Table Rock, or what remains of it to be seen. While on the Canada side the visitors embraced the opportunity to get a wetting from Niagara's spray by "going under" a part of the Horseshoe falls, where the waters make a sweeping curve of 158 feet. After this experience the visitors were ready to go riding over the waters, and the little ferry just below the Falls was taxed to its utmost to transport them across to the American side. The majority preferred the excitement of crossing the water here to going around again by the Suspension bridge. Some time was spent on the river shore on the American side where the visitors could stand almost under the American Falls and be baptized with the spray from the waters which fall from a height of 168 feet. From this point up the incline plane, a little loitering in Prospect Park, then across the American Rapids to the Island, around the picturesque island, taking in a view from each of the "Sisters," down to the Cave of the Winds, and so through every detail, in places where it was dangerous to tread, and elsewhere where the view could be enjoyed with safety—the visitors went. Some of them were quite venturesome—among them a lady from Allegheny, who proceeded in advance of all the party on the pathway to the Cave of the Winds, and stood almost on the spot where the tragedy of a few weeks ago occurred.

Where there was so much to see and attract attention it was almost impossible to form an opinion as to the point most attractive. Aside from the Horseshoe Falls, however, the Whirpool and Rapids seemed to attract the greatest attention and the visitors lingered longest in this vicinity. The excursionists were also especially interested in Barnett's Museum, on the Canada side, where they were royally received, and had every attention shown to them, and where they lingered in examining the many unique and exquisite ornaments and curious articles on exhibition there.

This grand round of the sights was concluded about two o'clock, when the visitors with appetites of the healthiest character, sat down to dinner. The gastronomic attractions seemed to engage as much attention as the most sublime of the sights, and seemed to be equally enjoyed. The remaining minutes after dinner were spent in the curiosity shops, and the fruit of this tour among the shops was seen in the wagon load—more or less, of trinkets with which the visitors started on the return trip.

Homeward.

About three o'clock the excursionists began to re-assemble at the depot, and in half an hour they were comfortably ensconced aboard the cars, and running out of the depot with their faces turned homeward. The train coming home, as it had been going out, was under the general supervision of the Messrs. Rupert, who were assisted by a corps of accommodating and competent officers of the road. The officers representing the Erie and Pittsburgh road were Mr. S. E. Kennedy, conductor, and Mr. Henry Graeburg, engineer. On the Lake Shore road the gentlemen in charge were Mr. B. Henn conductor, and Mr. William Sankey, engineer. On the Lake Shore Road coming from Niagara Falls, the train was in charge of John L. Mills, engineer; conductor Horace F. Clark. The train was run on a special schedule each way, and had the right of the track, so that there was some fast traveling. Going out the running time between Pittsburgh and the Falls was eight hours and ten minutes. The train made the fastest time ever made on the Lake Shore Road, on the route between Erie and Buffalo, the sixteen miles were traversed in sixteen minutes. The passengers held their hair on, and seemed to enjoy the rattling rate. Notwithstanding this fast travel, not an accident occurred, and the train went through smoothly and without an unpleasant jar—the travelers fully realizing all the exciting pleasures of riding on a rail with a clear track ahead.

On the return there was nothing of special interest to make the journey noticeable save at Conneautville, where the managers of the excursion—the brothers J. E. and W. H. Rupert left the party—that being their home. When the train stopped at the station and the brothers got off they were met by a large crowd and the excursionists gave three rousing cheers as a parting salute. The remainder of the journey was made without incident—and the excursionists arrived in the city as stated, this morning, weary, but with the most pleasant recollections of the excursion. All were enthusiastic in their praises of the Messrs. Rupert for the perfect manner in which they had attended to every item and carried out their difficult task. Nothing occurred from the start to the close to mar the success of the trip, and the travelers found that every detail had been so carefully attended to that their greatest comfort was everywhere assured. It was certainly one of the most pleasurable, as it was one of the most successful excursions that ever went from this vicinity in any direction, and as this was the first excursion of the kind from our city, its success and the delightful results will go far toward popularizing such pleasure trips.

THE BALL AND BAT.

Defeat of the Iron City by the East End Club—A Hint Concerning Scientific Batting—New Castle Journalism—Notes on the Fly.

Quite a respectable number of spectators witnessed the game of ball at Union Park yesterday between the Iron City and East End clubs. The playing on both sides, at the commencement of the contest, was below medium, but toward the close it was improved materially. The game was called at four o'clock and the East End club, winning the toss, took the field and did some of the worst fielding we ever saw, allowing the Iron Citys, before they were retired, to score eight runs. The first inning was characterized throughout by poor playing, the Iron City boys doing but little better than their opponents. Both clubs are made up of very good material, but the members have considerable to learn yet in the matter of caution, judgment, quickness, agility, and indeed in all the elements that enter into good fielding and batting. The number of wild throws was inexcusable, and attributable to too much haste and a lack of judgment in measuring distances with the eye. Denny, of the Iron City, whose position is in the left field, but who was placed behind the bat during a part of the game, is one of the most graceful, prettiest and surest catchers that ever played in Union Park, and he only needs practice to place him among the best of players. Both clubs have good pitchers, and they managed to put the balls just where they were wanted, but they were of that sort which the batsmen had no difficulty in knocking all over the field. Denny was run out twice between bases, for which there was no necessity, as the junctures were not so critical as to demand extraordinary exertions to effect scores. The game progressed very satisfactorily and smoothly until the last half of the sixth inning, when the East End club raised a squabble, which was not all creditable, over a decision of the umpire. The Iron City was in the field and the East End at the bat. McDonough was out, Case on first base and Leech striking. The latter knocked a high ball, which was caught by Denny, and the umpire decided the striker out. Case, when Leech hit, started to run from first to second base. Denny dropped the ball he had caught, but quickly picked it up again and threw it to the second before Case had reached there. The umpire decided the runner out too, and in both instances his decision was correct, but the East End club disputed it and talked about not playing the game through. However, the difficulty was amicably arranged and the match proceeded to the end. When will base ball clubs learn that the decision of an umpire is indisputable, and that to raise a row over it does no good at all? Even if an umpire should make an error, and render a decision manifestly wrong, it shows a much more commendable disposition to quietly submit than to quarrel over it. Both the Iron City and East End clubs have an ugly habit of calling out "judgment" upon doubtful balls, strikes and plays, and every time judgment was asked for yesterday it was done before the umpire had time to say a word. All such demands are unnecessary and indicate a want of confidence in the one who has been chosen to see that both sides get justice. There is another matter to which we desire to call attention. The members of both organizations were very persistent in loafing about the table at which the scorers and newspaper reporters were seated, and obstructing the view of the catcher, batter, and almost the whole field. The scorers' table is no place for them and they should vigorously stay away from it, and endeavor to learn, by watching the playing of others, how their own playing can be improved. Trusting that the above observations will be received in the same kindly spirit in which they have been written, we append the score of the game and announce a victory for the East End club:

MORE DIRTY WORK.

A few days ago this journal suggested that the return games between the Xanthas, Braddocks and Neshannocks be played on consecutive days at Union Park, and the writer, in offering the suggestion, gave his reasons therefor, chief of which was that the financial results would be more satisfactory to all the clubs concerned than if the games were played elsewhere. The idea originated with the writer, but a New Castle paper has seen fit to ascribe it to the Xantha club, and has made it the basis of an article in which the Xanthas are alluded to as roughs and bummers, and their names associated with burglars. This same New Castle sheet has been engaged all season in vomiting its filth upon the Xantha club for no other reason than because it defeated the Neshannocks in a game that was fair and square. We believe the Neshannock club to be composed of gentlemen, and when we have had occasion to refer to them we have always spoken of them as such. In the ensuing game between these two clubs if the Neshannocks should prove victorious we will freely acknowledge the same, but will not make their success a cause for the application of vile and ungentlemanly epithets. The Neshannock boys should stuff a five dollar greenback in the mouth of the New Castle editor, buy him a copy of De Witt's Base Ball Guide and dry him up. He is doing them more harm than good.

OTHER GAMES.

The Chain Gang nine, of the City Engineer's office, played at Hazlewood yesterday, with the Sponge Cup club, comprising nine of the Municipal Hall clerks, and were defeated by a score of 39 to 14.

The Braddocks club will play this afternoon, on their grounds, a picked nine selected by Capt. W. B. Battelle, of the late Hazlewood club, and consisting of the following players: Thomas McTighe, pitcher; James Denny, catcher; Davy Johns, 1st base; W. B. Battelle, 2d base; Willie Johns, 3d base; Frank Denny, short stop; Cane, centre field; Ed. Cowan, right field; Keogh, left field. Six of the above players are from the old Hazlewood club, Jas. Denny is from the Xanthas and Frank Denny and Cane are from the Iron City.

In a game at Shadyside, on Thursday, the Olympics, of that place, were defeated by the Enterprise, of the East End, by a score of 25 to 6.

A meeting will be held on Thursday evening next to reorganize the Hazlewood club.

A game will be played at Hazlewood on Tuesday, between two legal nines, one of which was so badly beaten by the reporters a couple of weeks ago.

Come and See Me.

This invitation is given for the benefit of every reader. The proprietor of the Central Shoe House, No 108 Federal street, Allegheny, wishing to grant favors to his customers, would ask them to come and see him at his place of business, feeling assured that he can sell them the best boots and shoes, in material and make-up, for less money than the same quality can be purchased anywhere else in the two cities. Do not fail to call, as a bargain you will be sure to get.

"The Critic."

The second number of "The Critic" will appear to-morrow. To avoid a rush, carriers and newsboys will make early application. A much larger edition will be printed this week so that all can be supplied.

AMONG THE CHURCHES.

Brief Notes of Matters Personal and Otherwise.

EVENING SERVICES will be resumed in all the churches next Sunday.

REV. DR. I. C. PERSHING will preach at the Bentleysville camp meeting, to-morrow.

THE Fall Conferences of the Methodist (non-Episcopal) Churches commenced this week—the Ohio, at Spring Valley, leading off.

THERE will be regular exercises in the Second U. P. Church (formerly Rev. T. H. Hanna's.) Preaching by a minister from Canada.

REV. E. S. MCKITTERICK, of the Third U. P. Church, Allegheny, is enjoying a trip to Ohio and there will be no services in his church to-morrow.

THE camp meeting season draws to a close. The meetings have been more largely attended this year than usual, and much good has been done.

REV. DR. B. F. BROOKE, of this city, is expected to preach to-morrow morning at the Loyalhanna camp meeting now in progress near Latrobe, Pa.

THE *Hibernian* sounds a note of warning, from a Catholic standpoint, on "mixed marriages"—that is, marriage of the children of the faith with unbelievers.

THERE will be a free organ concert given in the Third Presbyterian Church, on Monday evening, by Mr. D. D. Wood, the blind organist of Philadelphia.

REGULAR SERVICES will be resumed in the North avenue M. E. Church, Allegheny, to-morrow—the pastor, Rev. E. B. Snyder, preaching morning and evening.

REV. A. J. LEVY of Cincinnati, himself an Israelite, and long a Christian laborer among his people, is at present visiting Pittsburgh on the business of his mission.

REV. T. H. HANNA, formerly pastor of the Second U. P. Church, this city, has accepted a call from Xenia, Ohio, and will enter upon his duties the first Sabbath in September.

REV. M. W. JACOBUS, D. D., of Allegheny City, will preach in the First Presbyterian Church, Steubenville, to-morrow morning, and in the Second Presbyterian Church in the evening.

THE trustees of Monongahela College, Jefferson, Greene county, have declared the President's chair vacant. Rev. J. D. Herr, now pastor of the Penn avenue, Baptist Church, is spoken of for the position.

IT is contemplated that early in September, and previous to the departure of the Rev. J. S. Barr and family for India, there will be a missionary convention in the Chartiers U. P. Church at Canonsburg.

THE Presbyterian Church at Rochester, Presbytery of Allegheny, Rev. E. P. Lewis, pastor, though a new organization, is making encouraging progress. Its new house of worship will soon be dedicated.

PREACHING to-morrow morning and evening in the First Christian Church, corner of Arch street and Montgomery avenue, Allegheny, by Rev. Joseph King, pastor, who has returned from his summer vacation.

THE noon meeting at the rooms of the Y. M. C. A. will be held to-day by Mr. Thomas Bakewell, taking up the Sunday School Lesson for to-morrow. Meeting commences at 12 o'clock and continues 45 minutes.

REV. W. YOUNG, pastor of the First R. P. Church, corner of Liberty street and Oak alley, has returned from the White Mountains much benefited by his trip. There will be services as usual in his church to-morrow.

THERE will be an Infant Baptism service administered at the St. Cyprian's Episcopal Mission to-morrow morning, conducted by the pastor, Rev. W. F. Floyd. After the service the pastor will preach on "Night scenes in the Bible."

REV. S. G. MCFARLAND, who has been living at Canonsburg for the last two years, has returned to Bangkok Siam. During their stay in this country Mr. and Mrs. McFarland were of immense service in awakening a missionary spirit in many places.

THE Bacalaureate sermon, preached by Rev. Dr. William Hunter, of the Pittsburgh *Christian Advocate*, June 27th, 1875, before the students of Beaver Female Seminary, has been published in pamphlet form. The sermon is founded on Isaiah lv: 4, and the topic is "The Great Popular Leader."

REV. MR. BARR, a returned missionary, will conduct the services in the Fifth U. P. Church, Allegheny, to-morrow, commencing at 10½ A. M. and 7½ A. M. The pastor, Rev. J. W. Witherspoon, is expected home from Tennessee within the next week, and will occupy his pulpit as usual on Sabbath week.

REV. CYRUS NUTT, D. D., late President of the Indiana State University, at Bloomington, is dead. He was a member of the Indiana Conference, and has occupied conspicuous positions. He was a graduate of Allegheny College, was for some time a professor at Indiana Asbury University, and was buried at Greencastle.

ON the 15th inst., at the annual election held by the Brotherhood of St. Joseph, Lawrenceville, the following gentlemen were elected to serve as officers during the ensuing year:—John Barrett, President; B. R. McNierney, Vice President; P. M. Cushing, Secretary; Thomas Curley, Michael Collins, and P. B. Duffy, Stewards; Joseph Rock, Chief Marshal.

THE corner stone of the new church at Amity, Washington county, was laid on Monday, 16th inst., with appropriate ceremonies. The attendance was quite large and the exercises were participated in by Rev. Dr. Geo. P. Hays, Prof. Woods, Prof. Fraser, Rev. Atkinson and others. The structure will be of brick, fifty by sixty feet, with vestibule in addition.

THE second of the series of Temperance Jubilee meetings will be held to-morrow evening at the Alliance rooms, corner Penn and Sixth streets, beginning at 7½ o'clock. The exercises will be conducted by Messrs. Morris and Lincoln. Mr. Lincoln will preside at the organ, and will intersperse the exercises with "Hold the Fort," "The Ninety and Nine" and other selections.

BISHOP DOMENEC last week officiated at the reception of the following ladies as members of the order of St. Benedict, at Carrollton, Cambria county: Sister de Sales (in the world, Miss Kate McCoy); Sister Bonifall (in the world, Miss Alice Adams); Sister Veronica (in the world, Miss Rosie White); and received Miss Mary Keogh (in religion, Sister Mary Magdalen).

THE First, Second, Third and Central Presbyterian Churches will hold union services to-morrow in the Third Church, Sixth avenue, the Rev. W. D. Howard, D. D., of the Second Church, officiating. Morning services at 10½ o'clock. The prayer meeting to be held in the Third Church lecture room on next Wednesday evening will end the series of summer services in which these churches have participated.

REV. CHARLES COOKE, of the Methodist Church, died in Philadelphia on the 24th. He entered the ministry in 1820, in the Pittsburgh Conference. His last pastoral charge was the St George's Church, in Philadelphia, in 1870. The Pittsburgh Conference, at the time of his membership, embraced all of Western Pennsylvania and West Virginia. He continued within the bounds of this conference for thirty years, spending a number of years in this city. His early labors were of an iterant, missionary character, preaching in barns, school houses and private dwellings, oftener than in churches. He was pastor of the charges of Liberty and Smithfield streets, this city, and of South Common, Allegheny, and was for four years presiding elder of the Pittsburgh district. His early co-laborers were Revs. Charles Avery, Geo. Brown, Charles Elliott, D. D., Wesley Browning, Wm. Hunter, D. D., H. K. Miller and others. In 1840 he was chosen editor of the Pittsburgh *Christian Advocate*, a position which he filled acceptably for four years. While he was at Liberty street there was a marked revival, during which quite a number of prominent citizens connected themselves with the church. About twenty years ago he was transferred to the Philadelphia Conference. He was seventy years of age when he died.

ALLEGHENY POOR DIRECTORS.

Meeting Last Night.

The Allegheny Board of Directors of the Poor held their regular monthly meeting at the Poor House, yesterday.

The Supply Committee was authorized to purchase a lot of made-up clothing for the inmates of the Poor House.

The Improvement Committee was authorized to make some improvement on the Poor Farm.

The Board then elected Miss M. J. Ferguson nurse of the poor department. There were fifteen applicants for the position.

Mr. T. F. Crubbs presented his resignation as a member of the Board from the Tenth ward. It was accepted, to take effect on September 1st. Mr. John Q. Workman, from that ward, was elected to fill the vacancy.

After the transaction of further business of minor importance, the Board adjourned for dinner, after which they returned to the city.

A Grand Improvement.

The Iron City College, corner of Penn avenue and Sixth street, for some time past undergoing repairs, has been completely refitted and throughly renovated throughout. The spacious halls of the college now present a most charming appearance, and doubtless surpass in elegance and conyenience anything of the kind in the State. We have no doubt that Prof. Smith, who has spared neither pains nor expense in this matter, will be abundantly rewarded for his generous outlay by a greatly increased attendance of students during the coming fall and winter.

Dining Room Furniture.

Extension Tables, Side Boards, and a general assortment of plain and fancy Dining Room Furniture, selling at cost, to make room for our fall stock.

COURT BREVITIES.

Writs of *certiorari* were issued by the Common Pleas Court No. 1 yesterday on Alderman James English in the cases of the Pittsburgh Bolt Co. vs. William Davis et al., commanding him to produce his record in Court for review. The writ was made returnable September 28, 1875.

A capias was issued out of the Common Pleas Court No. 1, yesterday, for the arrest of Samuel French, at the instance of Kate Fox by her next friend, John Brown. The plaintiff avers that on the 28th of July, while in the employ of the defendant, she was attacked by a dog, which belonged to French, which bit her violently, inflicting severe wounds from which she has suffered greatly. Bail was fixed in the sum of $300.

Application was made in the Common Pleas Court No. 1 yesterday, by Robert Crompton, for a writ of *habeas corpus* on William Manfell, compeling him to produce in Court petitioner's child, Betsy Crompton, four years of age, who is now, it is alleged, unlawfully detained by Manfell. It is set forth that the child was given into the care of Manfell some time after the death of its mother, and he was paid for keeping it, and now he refused to surrender it. The writ was made returnable this morning at ten o'clock.

George Lepper who was arrested on Thursday on a bench warrant at the instance of J. H. Boreland & Co. et al., mention of which was made in our last issue, had a partial hearing before Judge Collier yesterday, and gave bond for a further hearing next Tuesday.

Hint to the Lean.

The cause of leanness, when there is no positive disease which produces it, is an imperfect assimilation of the food. The weight of the body undoubtedly bears a marked relation to, and increases proportionally to its height, when it is properly nourished with flesh-making blood. Hence, when we see a person with "slab" sides and hollow cheeks, we have a right to infer that his blood is thin and watery and his constitution delicate. Hostetter's Stomach Bitters is peculiarly servicable to such people, since it strengthens the digestive and assimilative organs, and is consequently a powerful auxiliary in the blood manufacturing processes, which in a state of health ought to be, and are thoroughly performed. An increase of muscle, as well as fat, is a result of using this sovereign anti-dyspeptic, appetizing and generally corrective cordial.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

Its Medical Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

VEGETINE is made exclusively from the juices of carefully selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system, every taint of Scrofula, **Scrofulous Humor, Tumors, Cancer, Cancerous Humors, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For Ulcers and **Eruptive Diseases of the Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration, and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous and General prostration of the Nervous System,** no medicine has evergiven such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and it is the only reliable BLOOD PURIFIER yet placed before the public.

RELIABLE EVIDENCE.

MR. H. R. STEVENS:

Dear Sir—I will most cheerfully add my testimony to the great number you have already received in favor of your great and good medicine, VEGETINE, for I do not think enough can be said in its praise, for I was troubled over thirty years with that dreadful disease, Catarrh, and had such bad coughing spells that it would seem as though I could never breathe any more, and VEGETINE has cured me; and I do feel to thank God all the time there is so good a medicine as VEGETINE, and I also think it one of the best medicines for coughs and weak sinking feelings at the stomach, and I advise everybody to take VEGETINE, for I can assure them it is one of the best medicines that ever was.

VALUABLE INFORMATION.

BOSTON, December 12, 1869.

Gentlemen—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the VEGETINE, and before I had completed the first bottle I saw that I had got the right medicine. Consequently, I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of VEGETINE. To benefit those afflicted with Rheumatism, I will make mention also of the VEGETINE's wonderful power of curing me of this acute complaint, of which I have suffered so intensely.

IN THE GROVE.

The Loyalhanna Camp Meeting—The Progress of the Services.

Correspondence of the Pittsburgh Gazette.

LOYALHANNA, Aug. 27, 1875.

The Loyalhanna camp meeting opened its services proper on Wednesday evening with an earnest sermon by Rev. W. T. Lauck, of Blairsville, on the importance of having Christ with us upon all occasions and in every act. Thursday morning at 10½ o'clock the stand was occupied by Rev. J. H. Henry, of New Derry, who delivered a plain, practical address, which had a marked effect upon the assembled congregation. The afternoon sermon was by Rev J. C. High, who urged the necessity of casting all our cares, public and private, upon God. A prayer meeting followed led by Rev. W. D. Slease, of Pittsburgh. Previous to the evening service prayer meetings were held in the tents set apart for this purpose, which were well attended, and marked by displays of divine power. At 7½ o'clock Rev. M. J. Montgomery, of Turtle Creek, spoke from Matt. XIX—27, setting forth the great rewards given to those who forsake the world, and follow Christ. An earnest prayer meeting followed at which one designated himself as a seeker after the pardon of sin.

The services upon this beautiful ground have opened auspiciously, the congregation are large and growing.—good feeling manifesting itself among those present, and encouraging the hopes of God's people that there grounds will again be hallowed—as in the past year—by the conversion of many souls. Many new cottages and tents have been erected and others improved, so that the camp present a still more pleasant appearance than during last year. The ministerial force is large; the following having been on the ground since the meeting commenced: A. J. Endsley, H. C. Beacom, W. B. Pugh, J. F. Core, J. T. Riley, S. Wakefield, J. S. Wakefield, W. F. Lauck, J. H. Henry, W. D. Slease, J. W. Baker, Jos. Hollingshead, W. L. McGrew, A. Scott, D. A. McCready, N. G. Miller, J. A. Miller, S. Keehler, A. V. Galbraith, George Orbin, A. H. Miller, S. P. Woolf, A. C. Cameron, M. J. Montgomery, J. C. High, G. T. Reynolds, A. C. Johnston, J. N. Pershing, A. B. Leonard and J. W. Weaver.

A communication just received by Dr. Ensdly, from R. Pitcairn, Esq., says that two special trains will be run next Sunday—one from Pittsburgh, leaving Union Depot at 7:40 A. M., city time, and leaving Latrobe at 9 P. M, and the other will leave Johnstown at 8 A. M., railroad time, and return at 9:30 P. M. R.

CINCINNATI, August 27, 1875.
The river is falling. Clear and warm. Arrived—Cons. Millar, Memphis; Exchange, Pittsburgh.

NASHVILLE, August 27, 1875.
The river is still falling; 3 feet 9 inches scant on shoals. Clear and warm. Arrived—Eddyville, Cairo.

MEMPHIS, August 27, 1875.
The river fell 28 inches. Generally clear and warm. Arrived—Legal Tender, Arkansas River. Departed—Vint Shinkle, Cincinnati; Ste. Genevieve, St. Louis; White, Vicksburg.

EVANSVILLE, August 27, 1875.
Clear; mercury 69 to 89. River falling slowly; 9 7-10 feet on gauge. Up—Idlewild, 7 A. M.; George Roberts, noon; Blue Lodge, 6 P. M. Down—Florence Lee, 1 P. M.; Fawn, 2; Tarascon, 4. Business very dull.

CAIRO, August 27, 1875.
Arrived—City of Helena, St. Louis, 1 P. M.; Jno. H. Scudder, St. Louis, 6. Departed—Norton, Ohio river, 2 P. M.; Vicksburg, 7 P. M. River 18 feet; falling. Clear and warm. Schumaker, the stewart of the tow boat Blue Lodge, died in the hospital here to-day.

ST. LOUIS, August 27, 1875.
Arrived—Belle of LaCrosse, Keokuk; Bayard, Hannibal; Julia, Vicksburg; Dugan, Jefferson City. Departed—Belle of LaCrosse, St. Paul; Belle Memphis, Memphis; Bayard, Hannibal. River fallen 14 inches; 6 feet scant to Cairo, and the channel in a very bad condition. Clear and hot.

THE marks last evening indicated 2 feet 8 inches, and falling. Clear and hot; no improvement in business, and none need be looked for until there is more water.

COM. KOUNTZ was still in St. Louis at last accounts.

THE Granite State, from Portsmouth, arrived and departed.

ADMIRAL WHITTAKER arrived from St. Louis yesterday by rail.

THE Wild Duck will not be able to get up until there is more water.

CAPT. DAN. MOORE will load the Arlington for New Orleans next week.

CAPT. GILMORE thinks of introducing the Grey Eagle in the Cincinnati and Henderson trade.

CAPT. GUS DU SOUCHET, late chief clerk of the Robert Mitchell, is going into business on shore at St. Louis.

IN our personal of Capt. Bears, in our last issue, the initials were wrong; it should have been J. A. instead of A. J.

THE John L. Rhoads was due last night from St. Louis, and will doubtless be found in port this morning. She will doubtless load for a return trip forthwith.

CAPT. LEW KATES has purchased the late interest of Capt. C. G. Pearce, one sixth, in the large and elegant steamer Thos. Sherlock, and will command her hereafter.

A WHARFBOAT in the interest of the St. Bernard Coal Company is to be stationed at the mouth of White River in a few days. The towboat Greyhound is to tow it from the Lower Ohio.

THE Fannie Tatum and barge, Pittsburgh to St. Louis, passed Cincinnati on Wednesday with 709 tons and a cabin full of passengers, and would add 1,200 barrels of cement at Louisville.

CAPT. JAS. S. WISE, Superintendent of the Cincinnati & Memphis Packet Co., has been nominated by the Republicans of Cincinnati, as their candidate for County Treasurer. No better nomination could have been made, and he will no doubt be elected.

CAPT. HUGH MCKELVY, an old steamboat captain and engineer, but who has been engaged in the oil business for a number of years past and is now a resident of Parker City, has been in the city for some days past, accompanied by an invalid daughter.

ROBERT GORDON, a well-known Pittsburgh and Cincinnati pilot, has been steamboating on the Upper Missouri all this season with Capt. Grant Marsh, who is his brother-in-law. His friends and acquaintances will be glad to learn that his health is much better; he writes that he has gained some 30 lbs.

PRIVATE dispatches received here yesterday reported that the Smoky City had grounded and sunk a part of her tow at Island 10, in the Mississippi. As we noted a few days ago, she turned back from Paducah with the two of the disabled Dick Fulton No. 3; the coal is the property of Riddle Coleman & Co.

THE Sioux City *Journal*, of the 23d, says: It seems that the Northern Pacific Railroad has got the upper hand of Com. Coulson and all of Yankton. The boats at the place mentionek have had nothing to do for the past two months, while the steamers at Bismarck have been kept busy all season. At present there is not a ton of freight for up-river at Yankton, and four boats are lying idle at the wharf.

A CAIRO dispatch gives the following additional particulars in regard to the Smoky City accident:—The towboat Smoky City, with a tow of twelve barges and six boats of coal, struck the bar at the head of Island No. 10, while under full headway yesterday, sinking the whole tow with the exception of one boat. Five barges are broken in two. The Smoky City was not injured. The river is falling very fast there, and will leave the sunken boats out of the water by to-morrow.

A ST. LOUIS dispatch under date of 25th says:—The Jno. A. Scudder left for New Orleans, loaded to the water, but there is no boat announced to follow, as they are all holding back for an advance in rates. An understanding will probably be arrived at soon, as steamboat owners are in consultation. Business fair. The Jno. Gilmore and Nail City are loading their barges with ore at the pile, and will leave for the Ohio river the last of the week. Captain Wm. Rhodes writes Commodore Davidson from St. Paul that the wheat crop is the heaviest ever known in that section, and a big fall trade is looked for. Travel on the Upper Mississippi continues brisk. Commodore Kountz is still here.

Kelly's Greenbacks.

The system of business pursued by R. Taggart, Boot and Shoe dealer of 129 Federal street, Allegheny, will do more to restore confidence, and bring the good time coming, than all the greenbacks that could be issued for the next two years. Let all business men sell as he sells,—that is, sell by retail at wholesale prices, and there will be no need for more money. Try Taggart, and see how far your dollar will go.

Steamship Arrivals Yesterday.

Dispatches received at Max Schamberg's European Steamship, Exchange and Telegraph Office, at 163 Smithfield street, announce the arrival of the steamer Donan, at New York; steamer Switzerland at New York; steamer Assyria, at New York; steamer Samuel Weller, at Queenstown.

CRIME IN THE CITY.

Brief Mention of Petty Criminalities.

THE charges of keeping a policy shop made against Force and others, will be heard before Mayor McCarthy this morning.

THE hearing in the case of George Piagett, of the Shakespeare Hotel, charged with maintaining a disorderly house has, at the request of the defendant, been postponed until Monday afternoon.

THE Mayor disposed of seventeen cases at the hearing yesterday morning. Two men named Martin and Muller, who were arrested as suspicious characters, were find five dollars and cost. When the former heard his sentence he made his escape by dashing from the station house. All the officers started in pursuit, but Marin had gotten a good start and succeded in eluding arrest. The fine was charged to the arresting officer, Henry Crispin, with instructions to transfer it to the police fund, but later in the day the officer succeeded in re-arresting his man, and thereby relieved himself from the payment of the fine.
